# EXCLUSIVELY LEGEND A REGENCY EVENT

OCTOBER 24 | HARRAH'S | NEW ORLEANS

Dear Collectors,

Welcome to the first ever Regency Event! This auction is different than our normal Regency Auctions, with fewer than 200 lots, all of which are part of significant and special collections. This Regency Event is comprised of four Collections that were each exclusively built by Laura Sperber and George Huang from our sister company Legend Numismatics. Plus, there are 2 select highlight coins from the incredible Bruce Morelan Collection.

For those of you who do not know our sister company, Legend Numismatics has been in business since 1977. Since Legend's founding, they have built many of the greatest collections assembled and have handled just about every major classic rarity. In fact Legend Numismatics has placed more \$1,000,000 with different customers than any other firm. Their pride and joy, however, has been building collections and handling the very best coins that exist.

When Legend Numismatics was approached by the consignors in this auction, they knew this was a unique opportunity to put together a special auction event that showcases just how special these collections are. We assure you, EVERY coin was handpicked for the HIGHEST of quality and the BEST eye appeal. When Legend Numismatics builds a significant collection, you're not ever going to see average, hazy mirrored, doctored, or problem coins. None of the collections included in this sale will disappoint even the pickiest collector!

Legend Rare Coin Auctions was created to be a different kind of auction house; a boutique style where quality and rarity reign supreme. The main premise was to give the customers of Legend Numismatics a place where their collections or coins can be prominently sold to other collectors. Of course Legend Rare Coin Auctions has been a stunning success! We expect this sale to only add to those credentials.

We'll be sad to see these collections sold. However it warms our hearts to see the coins placed in great new collections. We wish everyone good luck!

Sincerely,

Laura Sperber

## TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

## BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

## SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

## PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email [info@legendauctions.com](mailto:info@legendauctions.com) for bank-wiring instructions and/or to provide numismatic references.

## E-CHECK PAYMENTS

E-check payments now available. Please email form to [info@legendauctions.com](mailto:info@legendauctions.com)

## INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

## EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

## RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

## SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

## INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to [info@legendauctions.com](mailto:info@legendauctions.com). Payment for all international orders is required in US funds. Please contact [julie@legendauctions.com](mailto:julie@legendauctions.com) for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

#### BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

#### RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

#### DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

#### WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

#### DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

# LISTED BID INCREMENTS

Bid increments are to serve as a general guideline. Actual increments are at the auctioneer's discretion.

## OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale. All estimates are subject to changes in current market conditions.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

## PRINCIPALS

Laura Sperber  
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan  
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams  
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

# THE CC COLLECTION THAT SHOULD NOT EXIST

This is a wonderful set! Every coin is GEM and has spectacular colors. We have never seen anything else like it.

The collector drew his inspiration for collecting coins from his late grandfather. Morgan Dollars were the biggest part of his grandfather's collection and that is what became his focus. After seeing a toned Morgan and liking CC's, he made building a top set his mission. We did not think building a top complete toned set could be done as several dates were unheard of with bag toning. Somehow, Legend Numismatics found the best quality coins over a period of five years!

This set is being sold only to fund his other collections which are top registry sets. He is a young highly successful businessman who plans on being a coin collector forever! Legend sincerely congratulates him on building "The CC Collection that should not exist"!

**LOT 1**

**\$1 1878-CC PCGS MS66+ CAC**

FROM THE CC COLLECTION THAT SHOULD NOT EXIST

This is one of the few GEM toned 1878-CC Morgans we have ever seen. The quality and color really rank as VERY HIGH END!

Remarkable surfaces are exceedingly clean and have a satiny smooth texture. Even when using a really strong glass all you can find are a few minor marks. A substantial luster illuminates the beautiful colors and really makes the surfaces stand out. Super and totally original shades of sky blue/warm gold/pale purple/pale tangerine evenly blanket the obverse. The reverse has more of a blue/green/gold/purple color combination. We rank all the colors an 8+ on our 1-10 color scale (10 is the best). Miss Liberty and the details are sharply struck and stand out. The eye appeal is totally SUPERB!

This is not your typical 1878-CC. The last PCGS CAC MS66+ 1878-CC to sell in auction brought \$14,100 in January 2019. That was a totally white coin. No question this coin would challenge the quality. The current Collectors Universe Value is \$12,500. Good luck!

**PCGS# 7080 | ESTIMATE: \$10,000+**

**LOT 2**  
**\$1 1879-CC PCGS MS65 CAC**  
 FROM THE CC COLLECTION THAT SHOULD NOT EXIST

It's obvious to us that Mother Nature took a blank canvas that just happened to be a rare GEM 1879-CC \$1 and made it quite special. Besides the fancy artwork, the quality of this coin is **SUPER HIGH END!**

Bold semi-prooflike mirrors dominate both sides. You do not have to imagine them. We looked this coin over really hard and are thrilled that there are no imperfections of any size, anywhere. We think PCGS showed this coin no respect when it was graded (we make NO promises). The mirrors and luster have a tremendous flash you can see from a distance. The obverse has gorgeous totally original colors of sky blue/green/violet/gold. We unhesitatingly rank all the colors a 9 on our 1-10 color scale (10 is the best). There is no specific kind of pattern, Mother Nature just let the colors flow (79-CCs with color typically come splotchy or mottled). The reverse has bold contrast and a touch of gold by the rims. Miss Liberty and the details are all thickly frosted and have full strikes. The eye appeal will mesmerize you!

When this coin first hit the bourse floor back in 2013, we out bid two other dealers representing people in order to buy this magnificent GEM. Back then we paid \$48,000. Its not just the color that makes this **SUPER HIGH END** 1879-CC so special!

**PCGS# 7086 | ESTIMATE: \$40,000+**

**LOT 3**

**\$1 1879-CC CAPPED DIE PCGS MS64 CAC**

FROM THE CC COLLECTION THAT SHOULD NOT EXIST

To date, this cataloger has NEVER seen another rainbow toned Capped Die. We believe this to be possibly the rarest CC when it comes to finding beautiful original toning. In addition, this coin is as close to an MS65 as you can get with out the designation!

We strongly believe only some MINOR chatter on the face is what keep this coin from a full MS65. The chatter is only visible via a glass. Just as important, the surfaces have that thick satiny texture the date is known for and appear clean and smooth. There is nothing not to love about this GEM. An above average luster beams from all over. The obverse has original "soft" toning of pale reddish gold/green/pale violet/deep champagne colors that cascade across in a wave like fashion. We rank the colors an 8+ on our 1-10 scale (10 is the best). The reverse is untoned. Miss Liberty and the details are sharply struck and have thick frost. The eye appeal is great!

If you are working to build a complete toned Morgan Collection, then you already know how extremely rare this coin is. Regular PCGS MS64's generally sell for \$9,000-\$10,000. Not only does this coin have color, it is a real borderline MS65 and is still housed in an OGH! Total nirvana here!

**PCGS# 7088 | ESTIMATE: \$10,000+**

**LOT 4**  
**\$1 1880-CC PCGS MS66+ CAC**  
 FROM THE CC COLLECTION THAT SHOULD NOT EXIST

EX. SUNNYWOOD SIMPSON

With out any doubt this MEGA MONSTER toner is the wildest 1880-S that exists. When we were building the Sunnywood toner collection, he vowed one day to own this coin and the 91-CC. They were the last coins Sunnywood added to his set. Originally, this coin was a key in the famous Sonnier Toner Collection. Here is our original description from the Sunnywood sale:

Thereís no question that this piece is the greatest toned 1880-CC Morgan in existence! This monster borders on perfection and you can only see a few microscopic ticks with a strong glass. The surfaces are clean and smooth overall, while a vibrant luster shows off incredible shades of electric green/blue/violet that beam from the obverse. Sunnywood was never able to secure this coin while he was building this incredible collection, but after Legend Numismatics bought the famous Sonnier Collection, they placed this, along with the 90-CC and 91-CC in The Sunnywood Collection. If you're a wild toned Morgan collector, you have to see this coin! We expect intense bidding!

We rank the colors of this coin a full 10 on our 1-10 color scale (10 is the best). Back in 2014 when it was auctioned this coin brought a record \$34,075. We expect world record bidding again for this once in a lifetime toner!

**PCGS# 7100 | ESTIMATE: \$25,000+**

**LOT 5**

**\$1 1880-CC 80 OVER 79. REVERSE OF 1878 PCGS MS64**  
FROM THE CC COLLECTION THAT SHOULD NOT EXIST

KABOOM! Our heads nearly exploded when we saw this SUPER HIGH END Northern Lights like toner. Never have we seen this date anywhere near this spectacular before.

Outstanding surfaces just have a few very light and small scattered marks. None are serious. An above average luster for the date beams from all over. The obverse has a mind boggling mix of totally original pearl greens/fire gold/gold/electric violet/pale sky blue colors. These rainbow colors swirl all over. We fully rank these colors a 9+ and call them the equivalent of what you would see on many of the great Northern Lights toners. The reverse is white with a hint of gold by the lower rims. Miss Liberty and the details are frosty and fully struck. Your jaw will drop and lock when you see this stunner!

Another date that is extremely rare with colors like these. This coin's value is all about the colors. Also, it's a GSA dollar too! Good luck as we expect fierce bidding here!

**PCGS# 7108 | ESTIMATE: \$7,500+**

**LOT 6**  
**\$1 1881-CC PCGS MS67**  
 FROM THE CC COLLECTION THAT SHOULD NOT EXIST  
 EX. SUNNYWOOD SIMPSON

The CC Collection That Should Not Exist just keeps rolling along living up to its title. Here we have a full 1881-CC that is rainbow bag toned! The coin has amazing quality too. This is from our Simpson-Sunnywood Collection of 2014:

A monster bag-toned example of this classic date from the GSA sale of Carson City Morgan dollars. This coin features beautiful, rich obverse toning, including an area of classic emerald green. We have never seen a more attractive 81-CC. Note the interesting ghost image of a piece of canvas thread under Miss Liberty's chin and on her neck caused by a thread from the Mint bag canvas fabric lying across the surface of the coin for decades while the coin toned. From the late Mike DeFalco (Numismatic Enterprises). This coin is superior to the majority of toned 81-CC Morgans you will ever see, plus the quality borders on MS68 (no promises).

We rank the colors a full 9 on our 1-10 color scale (10 is the best). We can not say we know of many similar toned 1881-CC's crossing the auction block in any grade, let alone MS67.

Keep in mind, a regular untuned PCGS CAC MS67 sells for \$4,500-\$5,000. This is yet another one time opportunity for any serious toner collector! Be prepared to bid strong here!

**PCGS# 7126 | ESTIMATE: \$5,000+**

**LOT 7**

**\$1 1882-CC PCGS MS66+ CAC**

FROM THE CC COLLECTION THAT SHOULD NOT EXIST

This wild and crazy coin is similar to the 1881-CC in rainbow color. Mother Nature worked overtime on this collection!

One thing that is extremely impressive about every coin in this collection-besides killer colors, the underlying quality is all there and then some for the grades. This coin is no exception. You can clearly see the nearly perfect surfaces that are satiny smooth. The luster is moderate but does not limit the powerful iridescent colors. The obverse has a totally original bag type color mix of royal blue/pearl green/violet/fire gold/gold colors. We fully rank the colors a 9 on our 1-10 color scale (10 is the best). The reverse has a light crescent of gold/pale blue colors. Miss Liberty and every detail stand out with full and frosted strikes. Also, her cheek is extremely clean. The eye appeal is tremendous!

Think hard as to when the last 1882-CC you saw had vivid crazy colors like this. We can not remember any others for sale. Good luck!

This coin was robbed! We see no reason why this ULTRA HIGH END GEM did not grade an MS68. We make NO promises it ever will-but we have studied it over and over. We have no idea what PCGS did not like.

Not a single mark or microscopic tick can be found anywhere.

The surfaces are elegant and sleek. They produce a strong glowing like luster. The obverse has a semi-mottled mix of totally original golden brown/reddish gold/pale maroon colors that are more prevalent at the peripheries. The reverse has more even shades of pale gold/rose/green/deep champagne colors. We rank all the colors an 8 on our 1-10 color scale (10 is the best). Miss Liberty and the details are perfectly struck and rich in frost. The eye appeal is sensational!

This 1883-CC is not your typical toner. Nor is it your typical MS67+ in that it is probably a 67.9++! Regular MS67+ pieces have sold between \$9,000-\$16,000 over the last year or so. This coin is a "must see" for sure!

EX. SUNNYWOOD SIMPSON

How can anyone not be mesmerized by a cascading rainbow collection of iridescent colors? This 1884-CC has such a storied pedigree is really a special coin to behold. The consignor purchased it directly from the Simpson-Sunnywood auction we held back in 2014. Here is the description from the sale:

This is a really beautiful rainbow-toned CC dollar, whose rainbow palette is lighter and more attractive than the typical GSA rainbow CC dollars. GSA toners from the Carson City mint often exhibit a dull matte finish, muted colors, and speckled toning breaks. The overall appearance of this example is significantly prettier than the usual GSA examples, coupled with high gem-grade surfaces. From ANR, Allison Park Collection (8/15/04:700); previously seen at Goldberg, Long Beach Sale (1/04:2692). Could you imagine if all CC's looked as pretty as this? Monster colors and high end quality!

We fully rank the colors 8+ on our 1-10 color scale (10 is the best). Back in October 2014, this coin brought \$3,760. This is a date where we have seen a few neat toners-however none graded higher than MS63! If you are like the consignor and strive for the best, after looking everywhere, this is the coin you want!

We can't figure out which is a more amazing attribute, the beautiful colors or the seriously ULTRA HIGH END quality!

Virtually perfect surfaces are a delight to see. Using a strong glass finds only two tiny ticks-which we think are what keeps this coin from an MS68 designation. All of the surface area is satiny smooth. A strong luster illuminates the colors. The obverse has a rich and totally original mix of reddish violet/pearl green/blue/gold colors. We rank the colors an 8+ on our 1-10 color scale (10 is the best). The reverse is totally untuned. Miss Liberty and the details are fully struck. You can clearly see how perfect her cheek is without any magnification (something very rare today). The eye appeal is beautiful!

Here is yet another date that this cataloger does not see fully toned like this. Add in the superb quality and this coin clearly ranks as one of the all time great 1885-CC's! This is the coin that sold for \$31,625 in June 2011. We expect fierce bidding here, so be prepared!

EX. SUNNYWOOD SIMPSON

After looking all over and using every resource our sister company Legend Numismatics has (which are extensive), this was the best toned 1889-CC that could be found (forget about the MS68). At least this coin is really HIGH END quality too.

Here is the original description from the Sunnywood sale:

One of the “big five” toughest dates in the series, the 1889-CC is generally impossible to find with attractive original color. Most uncirculated 89-CCs are untoned, and almost half of those are prooflike, which would not fit the “look” of the Sunnywood Collection. We were fortunate to locate a true mint state survivor with legitimate peripheral blue and russet album toning. Earlier sold as “Choice BU” in a Stack’s auction during the early 1990’s, this coin would seem to merit an MS63 designation. We fully agree with Sunnywood, but have to wonder why this coin isn’t an MS63? It’s very clean and even exhibits a good luster while the colors frame the rims which only adds to the eye appeal. We expect very strong bidding on this special 1889-CC.

The colors stand out and are quite gorgeous. The most important characteristic of this coin is its 62.9+ quality. We assure you, this coin is of far better quality and eye appeal than many MS63’s we have seen (we make NO promises this coin will grade MS63). This coin is in this remarkable set for a reason—it’s one of the very best toners that exists! In October 2014 when the Sunnywood Collection was auctioned, this coin realized \$38,775.

This is the KING of 1890-CC toners. It is ex Brian Sonnier Collection-this is one of the three coins the Sunnywood Collector refused to call his collection complete without (80-CC and 91-CC). It is universally considered among toning experts to be the greatest 1890-CC toner. NOTHING else compares! The quality is also VERY HIGH END.

Even when using a strong glass and looking under the toning, only the tiniest mark or two can be found. A full booming luster shows off a kaleidoscope of original electric, end roll paper toning lines with wild shades of original navy/blue/green/violet/gold/tangerine that swirl wildly on the obverse. The reverse is creamy with a light hint of gold. We fully rank these colors a 9+ on our 1-10 color scale (10 is the best).

All the hard work and waiting has been done for you by Sonnier, Sunnywood, and the CC Collector. This coin clearly represents the toner opportunity of a lifetime! Back in October 2014 when it sold in the Sunnywood Sale, it brought \$27,025. We expect intense bidding on this incredible coin!

When we first saw this coin we thought it was an 1880-S. It totally blew our minds (and still does) that this monster toner is an 1890-CC Tailbar. In all our years in the coin market, we have never seen anything else even remotely similar! Plus, the quality is VERY HIGH END.

Amazing surfaces are exceedingly clean and smooth. Even when using a strong glass you only become more impressed. There are faint traces of semi prooflike mirrors. Between the slight flash from the mirrors and the luster, the colors really stand out. A gentle cascading mix of totally original pearl greens/blue/deep violet/gold colors go from top to bottom on the obverse. We rank the colors a full 9+ on our 1-10 color scale (10 is the best). The reverse has some mellow reddish gold by the rims. Miss Liberty and the details are fully struck. The Tailbar is plain to see. The eye appeal of this coin is jaw dropping!

If you are building any kind of toner set, this is a must have! The colors are so bold Legend told us if they were building Northern Lights again, they would include this coin! We think that says it all. We expect possibly a record price to be set here.

You can tell this coin sat somewhere undisturbed for an exceedingly long period of time. Obviously over that time it acquired some beautiful toning.

When examining this coin, we used a strong glass. We are proud to say we found nothing worthy of mention anywhere. The surfaces display a satiny smooth texture. The luster is strong. The obverse has a thin ring of pearl blue/green colors that open into red/pale olive/gold colors. The reverse is more golden brown/champagne/navy/lavender colors. All the colors are totally original. We rank the colors an 8 on our 1-10 color scale (10 is the best). Miss Liberty and the details boldly stand out with full strikes. The eye appeal is super!

We know this coin was submitted more than once to PCGS seeking an MS67. It really is that HIGH END (we think it will remain an MS66+). Finding any MS66+ CAC 1891-CC is rare, with or without color. EX. SUNNYWOOD SIMPSON

We unhesitatingly consider this coin to be one of the greatest all time CC toners that exists-yes, even better than a few of the unbelievable coins in this monster collection. We rank BOTH the quality and color a full 10 on our 1-10 color scale (10 is the best)!

This coin was bought out of our Sunnywood-Simpson Sale. The powerful description from then really says it all:

This is a simply superb example of this tough late Carson City issue. Although bettered by just two MS67's, this coin earns its celebrity status due to its stunning color. This was the first '92-CC to be graded PCGS MS66. In fact, it was the first to be graded above MS65 by any major grading service.

The gorgeous and colorful toning graces both sides above highly lustrous and extremely clean surfaces with a solid strike. It was part of famed Morgan dealer Bill Spears' "Greatest CC Set of All Time" and the PCGS Tour Set, a collection of the finest known Morgans that was displayed at coin shows during the 1990-1991 season (although it was replaced midstream in the Spears and Tour sets by one of the then newly graded white 67's, and is therefore not plated in Highfill). Featured in the NFL Set, the Michael Casper Collection, and the Arno Collection, we are pleased to add this superstar '92-CC to the Sunnywood Collection. Heritage, FUN 2009 (1/9/09:5009). This is a mind boggling, high end, problem free, toned CC! You rarely see even, unbroken color patterns that shimmer in a coin's full booming luster. If you're picky when it comes to your CC Morgans, this coin will more than satisfy!

Our consignor bought this out of the Sunnywood sale for \$29,375 back in October 2014. Today, the current Collectors Universe value is \$47,500, and none have sold since this piece! It does not matter if you are a CC Collector, a toner collector, or are building a box of 20-this 1892-CC is irreplaceable! Good luck!

The CC collector had a very difficult decision to make as to whether or not to buy this NON CAC GEM. He elected to and was approved by his building partners Legend Numismatics because this coin really is a GEM MS65 1893-CC!

Immaculate surfaces are actually flawless. We looked this coin over and over and found nothing. In fact, the surfaces are HIGH END. A surprisingly strong luster beams from all over. The obverse only is toned. Superb shades of totally original moderate olive/maroon/navy/gold evenly swirl around. We rank the colors an 8 on our 1-10 color scale (10 is the best). The reverse is white with gold/sky blue colors by the rims. Miss Liberty and the details are very well struck and stand out. The eye appeal is VERY pleasing!

We can not say we have seen many toned 1893-CC's - especially in GEM. The current Collectors Universe value is \$105,000-which is low considering a PCGS CAC piece just sold for \$152,750 in our May 2019 sale. We expect this piece to attract many bidders since it is a GEM 1893-CC with color!

Superior surfaces are sleek and have zero impairments any where. A full booming luster enhances the colors and the coin itself. The obverse has paper like toning. Beautiful and totally original colors of fire gold/green/blue/pale violet swirl all over. We rank the colors a 9 on our 1-10 color scale (10 is the best). The reverse is white with a hint of gold by the rims. Miss Liberty and the details are frosty and are sharply struck. You do not need a glass to see the O/CC. The eye appeal is fantastic!

# THE AMG COLLECTION

The AMG Collection of Proof Barber Dimes was assembled years ago by a major collector client of Legend Numismatics who wanted to have a fun “side project.” After evaluating a number of series, he saw lots of potential with Proof Barber Dimes. With low mintages across all 24 dates, 1892-1915, all dates are truly scarce. The collector gave Laura Sperber a directive to buy very eye appealing, GEM quality coins with nicely matching looks. After the course of some time, the collection was completed. As you look at the lots that follow, you can see that the collector’s goals were all met.

**LOT 18****10C 1892 PCGS PR66 CAM CAC**

Everything about this coin is SUPERB and high end! Exceptionally deep mirrors have a bold, watery reflection which is unencumbered by the wonderful peripheral toning, imparted by careful storage in an old album. The mirrors have a bold depth of clarity, which contrasts vividly against the thickly frosted design elements. Visually stunning cobalt and violet hues cling to the rims, softening to sunset orange-gold to silver brilliance in the center.

Charles Barber began redesigning the dime, quarter, and half dollar in 1891, to replace the long running Seated Liberty types in use since 1838. Barber's design shows Liberty's head facing right, her hair hidden in a cap with crown of olive leaves and headband inscribed LIBERTY. The portrait of Liberty is very similar to contemporary designs produced by European mints. The designs continued use until 1916 when they were replaced by Adolph Weinman's Mercury dime and Walking Liberty half dollar and Hermon MacNeil's Standing Liberty quarter. With the end of the Barber dime series came the end of the early period of Proof coinage; Proofs would not be struck again until 1936.

What a classy, high end, classic old time eye appeal this marvelous GEM possesses! Deep, beaming mirrors are sleek, smooth, and are the epitome of flash. The devices are sharply struck and frosted, standing out brilliantly against the surrounding fields. Both sides have rings of dramatic album toning, imparted from long term storage in an old time Wayte Raymond or similar holder. The blues and oranges are vibrant which frame stunning silver centers. Needless to say, the eye appeal is amazing!

Only 545 Proofs were struck. PCGS 9, NGC 4, CAC 12. CAC must have duplicate submissions in this grade, don't let the pops fool you! The last one to sell hammered at \$1,900 in our May 2017 Regency Auction, but that coin did not have the amazing eye appeal of this one. A more mottled toned example graded by NGC sold six years ago for \$5,581. This high end, PQ example is worthy of a very strong bid, well in excess of any Price Guide values. VERY RARE any finer, if you are a Registry Set collector, don't let this one pass you by!

FROM THE AMG COLLECTION

This stunning SUPERB GEM is essentially a match to the 1908. Beautiful album style toning frames both obverse and reverse, showing off the icy smooth mirrors and boldly frosted devices. The bold cameo contrast is exceptional for this date.

Only 650 Proofs were struck. PCGS 8, NGC 4, CAC 8. PCGS has graded two in PR66+ CAM and just eight coins finer. NO PR66+ CAM has sold in auction, but a PR66 CAM sold in the 2018 FUN auction for \$1,680 and a PR67 CAM sold in an August 2016 internet auction for \$3,301. The current PCGS Price Guide value is listed at \$2,800 and we think with its stunning visual allure, this coin will surpass that amount. Good luck!

**LOT 36****10C 1910 PCGS PR66+ CAM****CAC**

FROM THE AMG COLLECTION

This must have been from the same old time collection as the 1908 and 1909, as the eye appeal is nearly identical. Bold, vibrant, vivacious blues, golds, and oranges frame brilliant silver centers. Icy smooth mirrors delight the eye and contrast against the frosted devices. The eye appeal is awesome.

Only 551 Proofs were minted.

PCGS 10, NGC 5, CAC 5. There

are two in PR66+ CAM at PCGS, neither of which have sold in auction. No CAC approved PR66 CAM has ever sold in auction, and the most recent PCGS/CAC PR67 CAM CAC sold for \$3,760 in our October 2015 Regency Auction. This magnificent, SUPERB GEM is going to surpass the current PCGS value of \$2,500 when the hammer falls. Just a half dozen examples grade higher at PCGS. Do not be afraid to bid strongly on this one, who knows when you will have another chance to bid on one again.

**LOT 37****10C 1911 PCGS PR66+ CAC**

FROM THE AMG COLLECTION

This exceptionally high end GEM offers a bold look imparted by the rich, watery reflectivity in the fields, that beam with a strong depth of clarity below the iridescent toning that graces both sides. The eye appeal is bold.

Only 543 Proofs were minted.

PCGS 30, NGC 24, CAC 12. There

are just two in PR66+, neither of

which have sold in auction. The

most recent PCGS/CAC PR66 sold

for \$1,469 in April 2017 and we

sold a PR67 CAM for \$3,760 in our May 2018 Regency Auction. We think the current Collectors Universe value of \$1,650 is too low, we shall see when the gavel falls on this one. Bound for a great set.

WOW! What an amazing, stone bold black and white Cameo, bordering on full DCAM contrast. The blazing mirrors are quite deep and offer a stunning clarity and exceptional reflection. Essentially untoned, there is a subtle arch of gold at the upper periphery of the obverse. SUPERB in every way! Extremely rare in this fine a grade.

Only 700 Proofs were struck. PCGS 4, NGC 1, CAC 8. Clearly the CAC population accounts for duplication of submissions. We sold the only PR67 CAM to sell in nearly a decade and a half in June 2019 for \$5,288. That coin was toned. We know that this coin is worthy of an even stronger price, one that will exceed the Collectors Universe value of \$5,000. Just a single example, a PR67+ CAM, is graded higher at either service, and that one sold in April 2013 for nearly \$13,000! This marvelous, SUPERB GEM will bring a very strong bid when the hammer falls.

A miraculous GEM survivor from the lowest mintage of the series. Only 425 Proofs were struck for collectors, and the present beauty is truly a delight to behold.

Phenomenal multicolored toning graces both sides of this high end, sexy GEM. Bold, flashing mirrors enliven the bold colors. Dominated by blue, gold, and orange hues that meld with some violet and deeper red patina the stunning visual allure is quite seductive.

Only 425 Proofs were struck. PCGS 23, NGC 23, CAC 19. Only 3 PR66+s have been graded by PCGS. None have sold in auction. The most recent PCGS PR66 CAC sold for \$1,920 in May 2019 and a PR67 CAC sold for \$3,290 in the 2017 ANA auction. Clearly the current PCGS value of \$1,850 is probably too low. # SELECTIONS FROM THE BRUCE MORELAN COLLECTION

Legend Rare Coin Auctions' partner, Bruce Morelan, is unquestionably one of the greatest collectors ever. The collections he has assembled are second to none! He has built the number one sets of Bust Dollars, Mint State Seated Dollars, and Trade Dollars. In addition he has owned two 1913 nickels, the 1884 and 1885 Trade Dollars, an 1838-O 50C, an 1876-CC 20C, and the list goes on to include just about every major non-Gold classic rarity. Also, at one time Bruce had built the all-time finest set of Gobrecht Dollars, which is now part of the Simpson Collection.

His new passion is an early Type set that includes gold (which already is beyond amazing). Thus, the two coins in this sale became extras to him. In the typical Bruce fashion, both coins are nice GEM's. In our company's history we have never encountered a more passionate, quality oriented, and serious collector than Bruce. Having the chance to own any coin from his collection is truly special. It is his hope these two coins offered find good homes where they are treasured.

#### LOT 42

#### 25C 1827/3 ORIGINAL. PCGS PR65

Legend Rare Coin Auctions is honored to have been consigned one of the RAREST and storied coins of the 19th century and a true classic rarity of the entire American numismatic series. Recognized as an important rarity since the mid 1800s, the present coin's chain of ownership can be traced back to the years just after the Civil War. Over the years, just nine Originals have been discovered, and this one, which is among the absolute FINEST KNOWN, was the most recent discovery first offered in Edward Cogan's April 1867 auction of the Joseph Zannoni Collection.

All Originals were struck from the B-1 die marriage, with the Curl Base 2 on the reverse. The dies were left over from 1823 (all of which were overdates) making this really 1827/3/2. While mint records show that 4,000 quarters were struck in calendar year 1827, delivered on December 29, 1827, it is believed that these were all 1828-dated coins. No business strike example of an 1827-dated quarter has ever appeared. The obviously miniscule mintage of Proof 1827 quarters was not recorded. Recognized as a major rarity, later in the 1850s, the obverse die was pulled from the archives, matched with a different reverse die, which had a Square Base 2, and restruck. As one would expect, after years in storage, both dies were heavily rusted. Today, there are nine known of these silver restrikes, as well as five known restrikes in copper listed as Judd-48a. ANY 1827 quarter is a real prize for collectors, originals especially so. Considering that Eliasberg owned the "worst known" a coin that was either carried around as a pocket piece, or mistakenly spent and wore down in commerce to a VF definition.

The presently offered GEM is ranked as # 3 on the Moulton Census, behind just the Mickley-Garrett-Pogue example (PCGS PR66+ CAM CAC) and the Gem Proof that is impounded in the National Numismatic Collection at the Smithsonian Institution.

This GEM is richly toned with vivid, multicolored surfaces. The mirrored reflection of the fields brings out deep shades of varying blues, greens, and some russet-rose that comes out in a light. The mirrors have a deep and bold reflectivity on the outstanding, wonderfully preserved surfaces. Since the dies were first prepared in 1822, and then left over from 1823, there is die rust noted on Liberty's bust. While a few miniscule lines are noted in the fields, there are none that detract from the absolute GEM quality of this impressive rarity.

The pedigree, going back to its first auction appearance is as follows:

Joseph Zannoni Collection (Edward Cogan, April 1867, lot 103); Thomas Cleneay; Cleneay Collection (Chapmans' December 1890, lot 1339); John G. Mills Collection (Chapmans' April 1904, lot 999); William B. Wetmore; Wetmore Collection (Chapmans' June 1906, lot 396); Virgil Brand (inventory # 33836); Waldo Newcomer; A.J. Allen; George Hall; Stack's (likely privately, as no 1827 was in the May 1945 Stack's sale of the Hall Collection); Jerome Kern Collection (B. Max Mehl, May 1950, lot 1412); New Netherlands; Wayte Raymond; New Netherlands' Sale 49, June 1957, lot 1149; Dorothy Nelson; Stack's 1976 ANA Auction, lot 962; Stack's Session of Auction '80, lot 1177; Marcus J. Brown Collection (Bowers and Merena, November 1983, lot 2981); Bowers and Merena's Dodson/Collier Collections sale, June 1984, lot 3975; Superior's Session of Auction '89, lot 570; unknown intermediaries; Greensboro Collection; Heritage's sale of the Greensboro Collection, Part VII, January 2019, lot 4446, where it realized a record price of \$444,000.

PCGS 1, NGC 0. This is the FINEST graded in the non-CAMEO designation, and there is just one in PR66+ CAM graded finer. A major rarity like this appears in auction very infrequently. Do not let its second appearance in 2019 in any way make you think negatively on it. Our consignor bought it out of the FUN auction and is now moving on to a new project. Prior to this coin selling, the Gardner Coin, PCGS PR64 CAC sold for \$411,250 in June 2014, and the Pogue Collection offered the SUPERB GEM Cameo example from the Garrett Collection, which sold in May 2015 for a world record \$705,000. Once this important coin is sold, who knows when another will ever come up for sale. All of us at Legend Rare Coin Auctions wish bidders the best of luck and a hearty congratulations in advance to the winning bidder. Ownership of any 1827 quarter, but especially an Original, places you in the pantheon of legendary collectors.

#### LOT 43

#### **\$1 1838 GOBRECHT. J-84 RESTRIKE. PCGS PR65 CAC**

The 1838 Gobrecht Dollar has always been a major rarity and very popular issue. This AMAZING GEM is tied for FINEST KNOWN of this incredibly important pattern dollar. Struck in Die Alignment III, like the majority of the known examples. For the design, the obverse has Gobrecht's name removed from the rocky base although faint traces remain when closely examined. The obverse now has thirteen stars surrounding Liberty, representing the original colonies, and the starry field with 26 stars of the reverse has been removed, and the eagle flies in the open field surrounded by legends and the denomination below, with the eagle flying level. The restrike J-84s are listed as Rarity-5 with an estimated mintage of 31-75 pieces.

This GEM's visual affect is absolutely magnificent! The toning is about perfect with classic greenish-blue shades on both sides, with flashes of pure reflectivity noted when examined under a light. The strike is bold throughout. To say this is a beautiful coin is a vast understatement, as this is a coin any numismatist will always love and treasure for both its quality and toning.

Over the years, many different theories surrounding the many variations of Gobrecht dollars have been offered. Extensive research has been done on this particular issue to determine where it was produced in relation to the other Gobrecht Pattern Dollars. Two major beliefs have developed. One camp of experts (Walter Breen and Robert Julian) believe that the die alignment I pieces were the originals, followed by die alignment IV and III being the Restrikes of the J-84 pattern. Another camp (John Dannreuther, Craig Sholley, Saul Teichman, Jim Gray and Mike Carboneau) believe the originals were first struck in die alignment IV. Research continues, and with each passing year, further examination of these rare coins sheds a little more light with each opportunity to compare different pieces. One famous example of this pattern in the Simpson Collection shows clearly the undertype of an 1859 silver dollar being used to strike the 1838 J-84 Pattern! Part of the fun of owning these coins is the potential to help discover new pieces in the puzzle.

PCGS CoinFacts enumerates the following examples in PCGS PR65:

The Amon Carter; TradeDollarNut; Simpson Collection example;

The Blue Moon Collection coin, sold Stack's Bowers March 2017;

The Ed Rector Collection coin, last sold at the 2018 ANA Auction;

The Bruce Morelan Collection coin. This piece which went unsold in our Regency Auction XVI, February 2016;

The example that sold in August 2009 Bowers & Merena, lot 1699 for \$126,500.

The Norweb-Gardner Coin was graded NGC PR65, and realized a record for the variety when it sold in April 2008 for \$149,500.

Tracing the prior provenance of this GEM has proved to be quite a challenge. It is not the Garrett, Virgil Brand, or Eliasberg example. Perhaps the next owner will endeavor to trace its provenance back.

PCGS 6, NGC 2, CAC 2. The other CAC-approved example realized \$132,000 in the 2018 ANA auction. Today, the Collectors Universe value is listed at \$145,000 and with NONE FINER, this is a great opportunity to own a major rarity in this always popular series. We would not be surprised if this one "ran away."

# THE YOUNG-DAKOTA

This remarkable group of Proof coins is highlighted by several unfathomable matched original proof sets all 1915 and earlier. Every single coin in this collection had been chosen by Legend Numismatics for this extremely picky collector. Marginal Proof sets would not do and certainly none could be "put together"! Only the finest in GEM Match Original sets with clear mirrors and great color would work. Even before the + system came about, the Young-Dakota Collector insisted his coins be of way above and beyond quality and close to the next grade up.

Building complete collections of year sets was his goal. When he could he would buy a matched original set, such as his 1914 which not only is one of the finest sets in existence, but was the first set he used to start this great collection. Besides super high end quality, wild eye appeal was a must have. Legend Numismatics took four years to build this remarkable

# COLLECTION PART II

collection. The coins being offered here are only Part II. There is one more amazing group to be sold (which includes a monster PR Barber Half set, a monster PR Walker set, a top PR Franklin set, and several GEM Proof singles).

The Young Dakota Collector has had a distinguished and successful career in finance and commodities. Once his collection is sold, he will not be done with numismatics. He will still be around to buy a better coin or two. Buying top quality colorful GEM coins is just in his DNA! Legend Numismatics and Legend Rare Coin Auctions thank the Young Dakota collector for allowing us to help build and now sell this great collection. As with any serious collector, his wish is these coins all go to good homes and no Proof Sets be broken up.

**LOT 44****ORIGINAL 1857 PROOF SET**

FROM THE YOUNG-DAKOTA COLLECTION

The earliest of original Proof sets from this amazing collection. Struck the year before the mint actually marketed the sale of Proof coins to the general public, approximately 50-75 examples of each denomination were struck. The total originality and matched coloration and grades attest to the fact these GEMS have been together since it was struck.

Numismatically speaking, 1857 is a very important year for our coinage. Bringing about the end of the half cent and large cent, and the introduction of the small Flying Eagle cent for circulation. The coinage act of 1857 also ended the legal tender status of certain foreign coinages in circulation. The end of the half cent and large cent are what led to a boom in coin collecting in the United States, and this is when some of the greatest collections sold in the second half of the 19th century got their start.

**1/2C 1857 PCGS PR64 RB.** Exceptional color and surface quality combine for a wonderful borderline GEM example of the last year of the denomination. Always popular as such. Both sides are well struck and there is a nice reflection in the fields.

**11C 1857 PCGS Small Date. PR64 RB.** Lots of original red survives with a lovely, original mellowing of the surfaces. Razor sharp definition. Another coin that represents the end of an era.

**1C 1857 PCGS FLYING EAGLE. PR64 CAM.** A gorgeous, highly reflective, essentially GEM example of this short lived type. While a limited number of Flying Eagle cents were struck in 1856, 1857 represented the truly transitional year, which saw them mass produced for commercial use. This one has a great color, bold contrast, and high end look. It takes a strong glass to locate a few tiny flecks and a stray line or two that explains the assigned grade.

**3C 1857 PCGS PR65.** Deeply toned on reflective surfaces with a crisp strike. Blue and olive shades mingle with teal and gold, imparting an original look.

**H10C 1857 PCGS PR65.** The color is an exact match to the 3CS above. Blue, gold, and olive tones dominate the reflective surfaces. While deep and rich, the colors are not dark, drab, or dull, and the mirrors have considerable flash.

**10C 1857 PCGS PR65+.** Another watery, reflective GEM with nice color, good flash, and strong, original eye appeal and quality. The highest graded coin in this set.

**25C 1857 PCGS PR64.** Flashy and pleasing, the reverse is lighter in tone than the other silver coins offered thus far, with a lighter golden hue in the center, yielding to the matched patina toward the rims. All the details are razor sharp in definition and the eye appeal is nice for the grade.

**50C 1857 PCGS PR64.** Wow! This coin is wonderful. Bold, flashy mirrors sparkle through the the dappled, multicolored toning. Deeper blues cling to the peripheral areas, while gold, amber, and rose tones come to life toward the centers and in the fields when the light hits the surfaces. Were it not for a couple of tiny ticks, this coin would easily have graded higher.

**\$1 1857 PCGS PR64+.** This is a gorgeous GEM example. Wonderfully mirrored fields have a bold flash and nice reflection underneath a light, variegated teal, sky blue, apricot, and pewter-silver patina. The pattern of color is highly original and the colors pop in a light. Well struck with essentially GEM quality surfaces.

This original, 9-piece Proof set is a real treasure of American numismatics. While not the finest known specimens, they are all quality coins that would appeal to any collector of mid-19th century Proof type coins. The combined PCGS Price Guide value is listed at \$89,300, but we know this GEM set is worth more than the sum of its individual coins. A final price into the six-figures would not be a shock to us. Good luck!

**LOT 45**  
**ORIGINAL 1860 PROOF SET**  
 FROM THE YOUNG-DAKOTA COLLECTION

This set should be named "the miracle set" as it is a wonder how it even exists today. There is no question this is a GEM Matched original set.

**1C 1860 PCGS PR65 CAC.** Strong mirrors beam boldly all over. The mirrors are clean and have good clarity. Both sides are evenly covered by a moderate layer of original colors. The colors include gold/green/pale violet. This is not a dull or drab coin. Every detail stands out with needle sharp strike. The eye appeal is great!

**3CS 1860 PCGS PR64+ CAMEO CAC.** For a smaller coin, the mirrors have big coin flash! The mirrors have good clarity and are pretty clean. Only using a strong glass can you see some lines and toning dots. The details steal the show with an incredible frosty strike. To find this date in cameo is really rare.

**H10C 1860 PCGS PR66+ CAC.** What a darling of a coin. As with all the other coins, this too has incredibly flashy mirrors. We see no reason why it's not in a PR67 holder (no promises). The colors are the same as the other silver coins, only this coin has a blush of blue. This coin is super pretty.

**10C 1860 PCGS PR65+ CAC.** There really is nothing wrong here except the toning is slightly darker. This is NOT a dull or drab coin as the mirrors powerfully beam from all over. The toning is the same deeper navy/reddish gold/forest green as the other silver coins. Here too every detail is needle sharp in strike.

**25C 1860 PCGS PR64+ CAMEO CAC.** This is a VERY high-end coin. It has a little irregular toning so PCGS was very tough on it. It is the same colors as the other silver coins. No question this piece is a full cameo. The details are sharply struck, and the frost is clearly evident. Very rare coin to find even as a single!

**50C 1860 PCGS PR66 CAC.** The mirrors boldly beam from all over. They are incredibly clean and super clear. We think because the toning is slightly darker PCGS would not grade this coin a PR67 (which technically it is). The colors are the same as the other silver coins. You can tell the sharply struck details all have thick frost. The coin has good eye appeal.

**\$1 1860 PCGS PR65+ CAC.** Strong mirrors blaze though thick and deeper toning (same as on the other coins). You can easily tell this coin has sat undisturbed for many years. The mirrors are clean and smooth. The toning on this piece is slightly more dusky than the others in the center. It's still a good-looking coin!

When is the last time you remember seeing an 1860 Proof set? We only remember one and that was in a huge group that had been bought directly from the Mint and was dispersed almost 20 years ago. Sets like this really are the last frontier of numismatics! The combined current Collectors Universe Value is \$48,250. We generally figure a 10% set premium.

NOTE: THIS SET WAS IN THE LAST YOUNG-DAKOTA SALE AND RECEIVED A \$70,500 BID WHICH WAS NEVER PAID. OPPORTUNITY IS NOW KNOCKING AGAIN!

**ORIGINAL 1876 PROOF SET**

FROM THE YOUNG-DAKOTA COLLECTION

EX CHEYENNE COLLECTION

Here is a very important, matched, original early Proof Set, featuring nothing but centennial year GEMS. Not only are all the coins of exceptional quality, several of the coins are near the top of the pop, and would be exciting coins on their own. All eight coins are PCGS/CAC and are Legend quality! Taken as a collection, these Centennial year coins are very special indeed.

This set contains the following coins:

**1C 1876 PCGS PR65+ BN CAC.** Pleasing violet and red hues blend together over evenly reflective, GEM quality surfaces. Sharply struck.

**2CN 1876 PCGS PR66 CAC.** A light iridescent, silver white hue gently caresses the reflective nickel surfaces. Really nice eye appeal.

**5C 1876 PCGS PR65 CAC.** The surfaces are an exact match to the 3CN offered above, with a soft haze over reflective surfaces. Totally original.

**10C 1876 PCGS PR67 CAC. TIED FOR FINEST** in the designation at PCGS. A rare opportunity, NONE have ever sold in auction. Exciting, intense mirrors glitter from below a rich, but not dark melange of orange and blue-teal color. Razor sharp and ice smooth, this coin is nothing short of stunning!

**20C 1876 PCGS PR66 CAM CAC.** Tied for second FINEST graded, just a single PR67 CAM is graded higher. SUPERB in every way, with flashy mirrored fields that contrast against the frosted devices. A similar color blend of toning as the dime, the pattern is slightly different, but no less original and beautiful.

**25C 1876 PCGS PR67 CAM CAC.** Just a single PR67+ CAM is graded higher, this is very high end and near the top of the pop for this popular issue. Thickly frosted devices show off a bold contrast to the watery reflective mirrors. A wonderful mix of lilac-slate, rose, gold, and teal-blue toning is brought out by the stunning mirrored fields and accent the bold cameo contrast.

**50C 1876 PCGS PR66 CAM CAC.** There are just two coins graded finer, this stunner has a gorgeous look. Essentially an exact match to the quarter, the reverse is a little lighter in the center. WOW!

**T\$1 1876 PCGS PR65 CAM CAC.** Bold contrast between the thickly frosted devices and the extremely reflective fields. The mirrors have a watery finish to them, which glint and gleam in the light, beaming all over. A real GEM, with a gorgeous melange of colors that match the other silver coins in this set, the fields show just the ever tiniest contact, which is why it is not graded higher. VERY RARE any finer, this is a great example.

Only 1150 Proof sets could have been assembled at the time. If other sets are out there, it would be extremely hard to rival the quality of the present set. The Collectors Universe value combined is over \$56,000 and we know a set like this will entice very strong bidding from anyone seeking SUPERB centennial year Proofs. Good luck!

**COMPLETE 1885 PROOF SET**  
 FROM THE YOUNG-DAKOTA COLLECTION

This is such a beautiful, quality oriented, and affordable set. To find a 134 year old matched, original set in our opinion is equal to owning any classic rarity!

**1C 1885 PCGS PR65RB CAC.** Not typical as this coin has lots of color. The mirrors are strong and make the colors stand out. The mirrors have tremendous clarity, cleanliness, and flash. Original green/Mint red/ gold colors swirl all over. Great coin!

**3CN 1885 PCGS PR65 CAC.** Here is a lovely, flashy Proof with icy mirrors and nicely preserved surfaces. Not hazy or with any kind of film on the surfaces that distort the mirrors, this GEM has a great look.

**5C 1885 PCGS PR66 CAMEO CAC.** Deep mirrors beam boldly from all over. The mirrors have good clarity and are pretty clean. You do not have to imagine the contrast. The eye appeal is superb!

**10C 1885 PCGS PR63 CAMEO CAC.** Watery like deep mirrors beam vividly from all over. Just a few very minor abrasions can be found in the right field. The colors are deeper golden brown by the rims.

**25C 1885 PCGS PR64+ CAMEO CAC. SUPER HIGH END.** We really do not see why PCGS was so stingy on the grade. The mirrors are deep and super flashy. There are no visible problems. This coin was upside down when stored with the others. Golden brown obverse, same on the reverse with the same hints of blue the other coins have. Killer eye appeal here too!

**50C 1885 PCGS PR64+ CAMEO CAC.** Just a few light stray lines keep this coin from a PR65 Cameo. The mirrors are deep and have that "watery" roll. There is no haze-just powerful flash. This coin has the same colors as the other silver coins-golden brown centers with blue by the rims. Great eye appeal!

**\$1 1885 PCGS PR64 CAMEO CAC.** The king of the set! No question this beast is HIGH END. Deep mirrors beam strongly from all over. The mirrors are clean and have strong clarity. Only using a strong glass can you find a few really light lines. Like the other silver coins in this set, the rims are royal blue and the centers are a pale golden brown. Miss Liberty and the details are fully struck and stand out with thick silver frost. Neat coin!

We have not seen many Matched Original 1885 Proof sets in our careers of 40 years. These are kind of the ultimate Proof Type sets to own. This set is actually somewhat affordable too! The current Collectors Universe value is \$12,000. Add about 10% for a set premium. These are just too cheap! We expect strong bidding here, good luck!!

**ORIGINAL 1890 PROOF SET**

FROM THE YOUNG-DAKOTA COLLECTION

Clearly this lovely proof set set was lovingly cared for since 1890, the coins kept together where the silver issues were clearly able to acquire wonderful matching patina on both sides over nearly-GEM to fully GEM plus quality grades.

**1C 1890 PCGS PR63 RB CAC.** Where is the brown on this high end example? First, the contrast is stunning, the obverse on its own is full CAMEO contrast, imparting bold visual allure.

**5C 1890 PCGS PR64 CAC.** Nicely reflective for the assigned grade, delicately toned with a nice look.

**10C 1890 PCGS PR65 CAC.** Thickly frosted devices stand out against the wonderful GEM quality, watery fields. Slate, olive, russet, and gold tone frame both sides, the brilliant sheen enlivens the colors.

**25C 1890 PCGS PR64 CAC.** Similar hues to the dime, there are hints of teal, rose and gold that blend together on the obverse, the reverse is bathed in gold with a halo of color at the periphery.

**50C 1890 PCGS PR66 CAC.** This is the highest graded coin in the set, and as expected, the eye appeal is excellent. Bold cameo contrast is seen on both sides. Totally original and very pleasing, this is a very high end example.

**\$1 1890 PCGS PR64+ CAC.** Both sides of this GEM Cameo Proof are framed by a lovely patina. The mirrored reflection on the fields contrast with the frosty, sharply struck devices.

The silver Proof coins each had a small mintage of 590 pieces. Matched original sets, the few that were sold to contemporary collectors over the years have been broken up, leaving any original set still intact incredibly rare. While the current PCGS Price Guide value is listed at \$14,140, the value of this set should add to more than the sum of its parts. Good luck!

**1893 MATCHED PARTIAL SILVER PROOF SET**  
 FROM THE YOUNG-DAKOTA COLLECTION

This lot contains the three Barber designed denominations in wonderful SUPERB GEM grade. Each coin is totally original and very high end with a stunning visual allure.

**10C 1893 PCGS PR66 CAM CAC.** Intensely reflective, high end watery mirrors beam all over on this lovely GEM. Pale rose, gold, teal, and lilac toning caresses the surfaces and the originality is attested to by some minor flecks, which we think is all that keeps this coin from an even higher grade. Good contrast.

**25C 1893 PCGS PR67 CAM CAC.** Thickly frosted devices stand out against stunning, icy mirrored fields that beam and reflect with bold clarity. The contrast is exceptional in every way, with razor sharp precision to the details and a nice, thick frost. Impressive teal, blue, peachy-gold, and lovely pastel iridescent hues enhance the wonderful eye appeal.

**50C 1893 PCGS PR67 CAM CAC.** An amazing SUPERB GEM that is among the FINEST graded-there are just three finer in the CAMEO category. Highly reflective mirrored fields are pristine and have the epitome of flash, clarity and reflection. Both sides are wonderfully toned with a matching palette of color that the dime and quarter possess. A truly impressive coin.

Only 792 silver Proofs were struck. This gorgeous trio has a similar appearance, making us believe that they have been together since mintage. While overall the current market values of Proof Barber coinage has been battered, these three coins are truly special examples and should bring bidding that exceed the current combined Collectors Universe value of \$15,850. Whether you are going to use these to start a SUPERB set of Proof Barber dimes, quarters, and halves; or place them into a carefully assembled Proof type set, this 1893 trio is for you!

### ORIGINAL 1895 PROOF SET

FROM THE YOUNG-DAKOTA COLLECTION

Legend Rare Coin Auctions is proud to have been consigned this magnificent 1895 GEM ORIGINAL PROOF SET that has been off the market for many years.

At the Boston ANA Show 2010 our sister company Legend Numismatics was approached by an elderly long time Boston area coin dealer. He offered them the set because of their reputation about buying matched original sets. Within minutes not only was the set Legend's, it was placed in the Young-Dakota Collection. This set has been Young-Dakota's favorite set and he is sad to part with it. However, estate planning calls.

The selling dealer's story was simple: he had owned this set for forty years! There was no reason not to believe him. This set was the absolute epitome of being matched original. Neither Legend Numismatics or LRCA had ever seen this set prior, in fact we have never seen any other 1895 Proof sets! Most sets have been broken up due to the dollar's high value. This superb set includes:

**1C 1895 PCGS PR65RD CAC.** Deep glittering mirrors beam boldly from all over. The mirrors have tremendous clarity and flash. There are a few light traces of some toning, but there are NO spots (that is a toning dot by the rim). The Indian and every detail is fully struck and has gentle frost. It is a GEM RD coin. The eye appeal is super!

**5C 1895 PCGS PR66 CAC.** VERY HIGH END. Deep mirrors offer a strong reflection. The clarity and cleanliness are strong too. When you twirl the coin the mirrors are "watery". Some slight contrast is visible. Miss Liberty is fully struck and has gentle frost. The eye appeal is excellent!

**10C 1895 PCGS PR67 CAC.** What a coin! The mirrors are strong and beam vividly from all over. Even with toning, you can see the coin's strong clarity. Both sides are covered by a moderate mix of original olive/teal/blue/pale purple colors. Miss Liberty and the details are fully struck. The eye appeal is fantastic!

**25C 1895 PCGS 66 CAC.** Crisp deep mirrors blossom boldly from all over. The mirrors look like a freshly made sheet of ice. There are no marks or lines. The clarity is off the charts. As with all the other silver coins in this set the totally original colors are olive/teal/blue/pale purple. Miss Liberty and the details are frosted and have full strikes. The eye appeal is terrific!

**50C 1895 PCGS PR66 CAC.** This stand out SUPER HIGH END GEM is a coin many people would put even in a higher graded set. Exquisite mirrors glow intensely from all over. They are crystal clear and have zero imperfections. Of course the same moderate original color mix of olive/teal/blue/pale purple colors are spread all over. Miss Liberty and the details are needle sharp in strike and have thick frost. The eye appeal is wonderful!

**\$1 1895 PCGS PR67+ CAC.** Not only is this coin the king of Morgans, its the king of this set! Outstanding mirrors beam boldly from all over. When you twirl this coin the mirrors have a rolling "watery" look (that's a good thing). The clarity is strong too. There is one tiny dot that keeps this pristine GEM from a PR68 grade. As you would expect, the colors are identical to all the other silver coins: original olive/teal/blue/pale purple. Miss Liberty and every detail fully struck and do have strong frost. The eye appeal is outstanding!

For the silver coins, only 880 pieces each were minted. We feel strongly its a miracle this set was not broken up to pull out the dollar (its pop 1). When figuring this set, include a set premium. We generally figure them at 10-20% depending on how nice the set is. EVERY coin in this set is VERY HIGH END and very eye appealing too. This SUPERB GEM set is beyond nice!

Both the Young-Dakota and the Legend family wish that this set is purchased by a collector who will cherish it as much as the last two owners have. Breaking up this possible once in a lifetime set, in our opinion would be a crime. Good luck!

**LOT 51**  
**NEARLY COMPLETE 1902 PROOF SET**  
 FROM THE YOUNG-DAKOTA COLLECTION

A lovely, mostly complete set indeed! Missing just the quarter, this set was put together by our collector looking for coins with well matched surface quality; 1902 Proofs are brilliant, usually with little Cameo contrast. The eye appeal and quality is pretty well matched.

**1C 1902 PCGS PR66+ RB.** The only non-CAC coin in the set, and the eye appeal is great. We think that a few insignificant flecks on the reverse is all that keeps this GEM from getting a CAC bean. The color and reflection are beautiful.

**5C 1902 PCGS PR67+ CAC.** Tied for FINEST graded! Flashy chrome-like reflection is blinding and the icy smooth surfaces beam blindingly.

**10C 1902 PCGS PR66 CAC.** Flashy, brilliant, original silver surfaces with lovely, clear gold toning adding to the eye appeal.

**50C 1902 PCGS PR66+CAM CAC.** Blazing mirrors and bold contrast for the date are seen on this SUPERB GEM. Untoned, this coin looks like it just came off the dies.

**\$1 1902 PCGS PR67+ CAC.** Among the FINEST graded! Gorgeous ancient tawny gold and blue toning which flashes with amazing contrast over the mirror fields and frosted devices. This type of elegant toning has been seen on the most original sets that were put away at the time of issue and left in the original paper wrapping from the Philadelphia Mint. Such toning takes generations to develop and truly comes alive when examined under a light, with vivid shades of blue and russet dancing across the glassy fields and frosted devices. The effect is stunning.

The silver 1902 Proof coins had a limited mintage of 777. This set, with two coins that rank at or near the Top of the Pop, will delight any one needing those coins for their advanced sets. That said, the whole package taken together also is a true delight to behold.

The Collectors Universe value adds up to \$43,200, with the dollar accounting for more than half of that. This group of SUPERB coins will bring a very strong bid when the hammer drops.

FROM THE YOUNG-DAKOTA COLLECTION

This is a great, matched original proof set! You can clearly see that each coin was carefully stored together for the last 110 years. Only 670 sets could have possibly been minted.

**1C 1904 PCGS PR65 RB CAC.** A mostly red and gorgeously reflective GEM. Strong eye appeal.

**5C 1904 PCGS PR65 CAC.** A very pleasing, high end, lightly toned example, especially for the grade.

**10C 1904 PCGS PR64 CAC.** High end, zero imperfections, with both good flash and lilac-dove color that delights the eye.

**25C 1904 PCGS PR65.** Super clean, strong mirrors and identical colors to the rest of the set. We're unsure why this failed to CAC.

**50C 1904 PCGS PR63 CAC.** Really high end for the grade. There are a couple of hidden, toned over hairlines that are all that keep this coin out of a higher grade holder. Trust us, we have seen worse in PR64 holders.

**\$1 1904 PCGS PR63.** Hard watery mirrored surfaces show off the identical colors as the Barber coinage in this set, but they are just a bit more mottled. We do not know for sure why CAC did not bean this dollar, it is totally original.

Despite the modest grades, we really do like this set. Its a true "old time" looking group of coins! Back in October 2014, this set realized \$8,519. Probably rarer today than five years ago, this is a truly well matched, original set in a price range most collectors can afford.

**ESTIMATE: \$7,500+**

**LOT 53**  
**1905 PROOF SET**  
 FROM THE YOUNG-DAKOTA COLLECTION

For whatever reason, so few of these sets survive today. Only 727 were ever minted. To find a set so pristine and original like this is exceedingly rare-do not underestimate it.

**1C 1905 PCGS PR66+RB CAC.** VERY HIGH END quality. Deep glittering mirrors are impossible to miss-even from a block away! The mirrors enjoy bold clarity and are clean. Only a tiny toning dot or two can be found using a strong glass. The color is a GEM original faded mint/red/pale brown. Do not think this date or grade are common-they are not.  
 Great eye appeal!

**5C 1905 PCGS PR66 CAC.** You do not even have to twirl this coin to see the deep and "liquid" like rolling mirrors. The surfaces are super clean. Mellow splashes of gold are spread all over. There are no spots. Miss Liberty and the details are needle sharp in strike. Terrific eye appeal!

**10C 1905 PCGS PR66 CAC.** Deep mirrors glitter boldly from all over. You can clearly tell they are clean and offer good clarity. Both sides are toned similar to all the other silver coins in the set: original splashes of olive/blue/reddish gold/silver colors. There is some contrast. Pretty good looking!

**25C 1905 PCGS PR66 CAC.** Another totally matched coin. You can't beat the deep, fresh, clear, and clean mirrors of this coin and all the coins in the set. The same blue/olive/reddish gold colors swirl all over this coin. Miss Liberty and the details really stand out with strong silvery frost. The eye appeal is neat!

**50C 1905 PCGS PR66 CAC.** SUPER HIGH END! We really do not understand why PCGS at the very least did not + the coin. Glass like mirrors are pristine and offer powerful flash. The colors are a bit lighter and are splashed less across the surfaces. This coin is SUPERB in every respect! The eye appeal is wonderful!

Lay the set out on a table and you just get the tingles seeing the matched colors and HIGH END qualities of each coin. The current Collectors Universe Value totals only \$13,500 for the set. Even with a set premium, it still seems too cheap. We love the value this 114 year old matched original set offers! Good luck!

**ORIGINAL 1909 PROOF SET**

FROM THE YOUNG-DAKOTA COLLECTION

This is a fantastic 1909 Proof Set that features nothing but GEM quality examples. Each coin is high end for its issue and has a stunning visual allure, imparted by bold mirrors and inspiring, original toning.

**1C 1909 INDIAN. PCGS PR66 RB CAC.** Swirling original shades of emerald, rose, and violet overtones on brilliant orange-red surfaces. Sharply struck and reflective.

**1C 1909 LINCOLN. PCGS PR66 RB CAC.** Really, come on?! Where is the brown on this RED Matte Proof Lincoln? Sure the obverse has a touch of light patina over the brilliant red surfaces.

**5C 1909 PCGS PR66 CAC.** Highly original, reflective mirrored surfaces have a wonderful light iridescent tone and sharply defined details.

**10C 1909 PCGS PR65 CAM CAC.** Wonderfully toned at the obverse periphery that frames watery mirrored fields and frosty, well struck devices. The eye appeal is quite nice.

**25C 1909 PCGS PR65 CAM CAC.** This GEM has a classic old time collection look. Flashy, watery mirrors have a bold reflection that contrasts nicely against the devices. Wonderful peripheral toning in shades of blue, teal, and rich amber-gold frame both sides, imparting a very high end visual allure, that is better than most at this grade level.

**50C 1909 PCGS PR65 CAM CAC.** Exceptional contrast for the date, especially on the reverse, the eye appeal of this highly reflective GEM is stunning. Dappled toning sparkles from the underlying mirrors, giving this amazing coin a great look.

All the coins are well matched with nothing any more serious than a few tiny lines, visible only with strong magnification and at certain angles in a light.

The silver issues had mintages of only 650 pieces. Over the years, how many of these sets have been broken up? Finding highly original, matched sets like this is becoming increasingly hard to do! The combined Collectors Universe value is listed at \$10,150. These sets really should be worth more than the sum of its individual parts, and with this set's great eye appeal and quality, it will sell for more. Good luck!

**ESTIMATE: \$10,000+**

**LOT 55**  
**1C 1883 PCGS PR67 RB CAC**  
 FROM THE YOUNG-DAKOTA COLLECTION

Where is the brown?! This coin displays a deep brick red color with highly reflective mirrors. While the color is not bright coppery-red like it just fell from the dies, there is no other color than RED on this coin; it is just toning down some. The dies were heavily polished, as evidenced by the richness of the mirrors and the frostiness of the reliefs. At certain angles you might actually think this SUPERB gem is a CAMEO.

PCGS 5, NGC 5, CAC 1. The last time one sold in auction was in the 2017 FUN auction, realizing \$4,700. Previously a non-CAC coin with way more brown and blue toning realized nearly \$5,600 in August 2014. This SUPERB GEM has much better eye appeal than that one, and should sell for more. The current Collectors Universe price is \$6,250. None are graded numerically finer, although there is a single PCGS PR67 RD finer which has not sold in over a dozen years! Perhaps the finest PCGS coin obtainable in the current market, and well worth a very strong bid from the specialist collector!

Rich brick-red and orange patina graces the highly reflective Proof fields, which have just lightly mellowed since the time it was struck. The eye appeal is exceptional in every way, from the GEM quality surfaces to the sharply struck, frosty devices.

PCGS 51, NGC 48, CAC 11. Over the years, just three examples have sold in auction, most recently a pair in November 2012, which realized \$1,645 and \$529. The current Collectors Universe value is listed at \$650. If you are on a budget, but collect high end quality coins, this one is for you!

A lovely GEM with bold RED color and intense mirrored reflection. Sharply struck up, the eye appeal is bold and totally original.

PCGS 23, NGC 13, CAC 4. No CAC approved example has ever sold in auction, but the most recent PCGS-graded PR65 RD brought \$1,800 in June 2018; that is well in excess of the current PCGS value. Prior to that, one sold in an internet auction in 2012. We think this one will bring a very strong bid.

**PCGS# 2407 | ESTIMATE: \$1,200+**

**LOT 58**

**1C 1909 V.D.B. MATTE PROOF. PCGS PR65 RB CAC**  
FROM THE YOUNG-DAKOTA COLLECTION

From the first year of this ever popular series, the 1909 V.D.B. Matte Proof cent is one of the rarest dates in the entire series. Despite a mintage of 1,194, which is the 3rd lowest in the Matte Proof series, it is thought that between 400 and 600 were actually sold to collectors, the rest, either destroyed at the mint or met some other unfortunate fate. Today, PCGS CoinFacts notes that around 200 are known in all grades (Population Report data from PCGS and NGC bear this out, with 192 graded in designations combined). With the lowest survival rate among the series, demand for this issue has done nothing but go up over the years, especially for beautifully preserved GEMs such as the coin offered here.

Stunning, satiny matte surfaces offer a bold vibrance. Ample original RED color blazes in the protected areas of the design, mellowing to a soft brown. Rotation in a light reveals some very attractive violet overtones, particularly on the reverse. Some very minor flecks seen on both sides are a testament to the total originality of this highly eye appealing beauty. A single tiny mark on the reverse near the O in ONE will serve as a pedigree marker for years to come. The eye appeal is amazing!

This is a date that because of its huge demand has led to hoarding. We know of a single holding that has been offered that contains over 50 pieces of the approximate 200 known.

PCGS 30, NGC 14, CAC 6. Do not let the population reports fool you! No CAC-approved example in PR65 RB has ever sold in auction. Going back to 1996, the auction prices database shows just 11 PCGS PR65 RBs selling in auction. A casual perusal of the examples offered this decade show none that have the eye appeal of the presently offered coin, indeed, we like it as much as the PR66 RB that we sold in July 2018 for \$55,813. As such, the current Collectors Universe value of \$32,500 is easily going to be surpassed when bidding opens on this fabulous Lincoln cent rarity! Who knows when you might have the chance to bid on another.

 FROM THE YOUNG-DAKOTA COLLECTION

A gorgeously toned GEM Matte Proof has spectacular eye appeal. A whirling blend of azure, violet, and green blends with gold and brown over the original red color. The matte surfaces are satiny with a bold mint glow. The sandblast texture shows off wonderful facets that sparkle in the light. The devices are sharply impressed on both sides. The eye appeal is exceptional.

PCGS 34, NGC 9, CAC 18. Over the years, only seven PCGS/CAC examples have sold in auction, ranging from a low of \$1,293 to a high of \$4,830, with the most recent selling in a March 2017 Internet only auction for \$1,580. The current PCGS Price Guide value is \$1,550 and just nine examples are graded higher in the RB designation. This marvelous GEM will see strong bidding for sure!

This marvelous GEM was once part of the 1994 Collection, which we sold in July 2017. This coin appeared in Lot 51, which we described as:

"Yet another absolutely amazing coin from the 1994 Collection. We picked this coin for reason 23 years ago!

Superior surfaces are fully matte like. Even using a strong glass, you not find a single flaw. There is a light luster. Totally original and in strike. The eye appeal is unreal!"

eye-popping colors of blue/green/brown/violet swirl all over creating an unforgettable color pattern. Lincoln and every detail are needle sharp

PCGS 66, NGC 18, CAC 16. The most recent example brought \$855 in a November 2017 Internet Only auction; and prior to that, we sold one for \$850 hammer in our June 2016 Premier Session. Today the PCGS Price Guide value is listed at \$1,250. Ignore these data points though, especially if you seek a really special, toned 1911 Matte Proof!

This is a wonderfully original GEM example of a Matte Proof Lincoln cent. The needle sharp details are bold, rendered from a crisp blow from the dies. The surfaces show touches of iridescent color on both sides, giving this GEM a great look.

PCGS 61, NGC 27, CAC 15. This is the only 65+ BN graded by either service, and it sold in September 2016 for \$2,233; that is more than what even PR66 BNs have sold for. With its bold visual allure, we know it will again bring a strong price.

Wild and wacky, totally original, STUNNING colors adorn both sides. This coin is forever a PR67 RB!

Shimmering Matte surfaces are pristine. You can use a strong glass and look all day and find ZERO imperfections - all you will see are some pinpoint scattered toning dots. A bold blast of luster also shows off totally original splashes of GEM MINT RED/blue/violet/pale brown colors. Lincoln and all of the details are sharply struck and stand out. The eye appeal is tremendous!

PCGS 9, NGC 6, CAC 7. The most recent example to sell realized \$8,519 in our March 2019 Regency Auction; prior to that, we sold on in January 2018 for \$10,281. If you are seeking a gorgeous Matte Proof that ranks among the finest for the date, this coin is it!

 FROM THE YOUNG-DAKOTA COLLECTION

From our July 2017 Regency Auction which featured the 1994 Collection, lot 55, where it was described as:

"Another ULTRA HIGH END GEM. PCGS sure did not show any 1994 coins any mercy!"

Exceptional Matte Proof surface are sensationally clean and satiny smooth. Even using a strong glass to look around will yield no problems. There are only two microscopic toning dots to be found. A glowing luster enhances superb shades of GEM ORIGINAL Mint Red/gold/pale green colors that swirl all over. Lincoln and every detail are pinpoint sharp in strike and stand out. The eye appeal is tremendous! We expect this coin to sell for strong money as it was handpicked by the principals of Legend Numismatics in 1994! This coin really does look nicer than some PR66's we have seen. Good luck!"

PCGS 50, NGC 24, CAC 13. PCGS lists a value of \$3,000 in their current Price Guide. The most recent example with CAC approval brought \$2,585 in the March 2017 sale of the Blue Moon Collection, which had been off the market since Stack's Session of Auction '84. The presently offered GEM has a much better visual allure, and should bring more!

This coin is very high end and offers a look that few could ever beat. Exceptionally reflective mirrored fields are ultra clean and have a depth of clarity that is rarely seen on Proof 3CN. We have viewed this coin at every angle and both sides are the ultimate quality. A blush of pale gold enhances the eye appeal of this boldly contrasted SUPERB GEM.

PCGS 63, NGC 39, CAC 42. A coin like this should sell in excess of the current \$1,250 Collectors Universe value. With just 10 coins graded finer at PCGS in the CAM designation, this coin is nicely suited for any high ranking PCGS Registry Set. If that is what you are working on, bid liberally and take home this SUPERB GEM!

Calling this coin anything less than a PR67.9+ is insulting!

Killer deep mirrors beam intensely from all over. The mirrors have great clarity and are virtually perfect. When you twirl the coin, the mirrors look like a freshly formed sheet of ice that glistens in the sun. The contrast is intense. Miss Liberty and the details are thickly frosted and have pinpoint sharp strikes. The eye appeal is phenomenal!

PCGS 13, NGC 14, CAC 12 (obviously a resubmission or two somewhere). PCGS has graded 6 coins in PR67+Cameo. The coin offered here last sold back in September 2016 for \$3,995. That was too cheap. After 33+ years of grading, this magnificent piece ranks among the absolute FINEST graded 1883 No Cents Proof Nickels, which says a lot about their rarity in such lofty grade!

Extraordinary, semi-liquid deep, crystal clear, clean, highly reflective mirrors beam from all over and both sides have a light, even layer of natural gold. There are a few microscopic toning dots. Miss Liberty and the details are frosty and have needle sharp strikes. The eye appeal is gorgeous!

PCGS 12, NGC 17, CAC 13. There are just two examples graded PR67+ at PCGS. This beautifully preserved and visually stunning coin realized \$6,756 back in our October 2014 Regency Auction IX. Five years since, the Collectors Universe value is listed at \$5,250. With NONE FINER, we know this SUPERB GEM will find itself at home in the FINEST of sets and we anticipate very strong bidding.

Tied for second FINEST graded, this is a very high end, colorfully toned Uber-GEM. Superb surfaces have a moderate reflection that beams from under gold, russet, tan, and lilac toning. The fields and devices are devoid of any flaws of any kind. While perhaps the toning obscures some of the reflection, the eye appeal is bold and the technical quality is SUPERB.

PCGS 29, NGC 17, CAC 22. There are four graded 67+ and just 2 finer in PR68. It was over four years ago when the last one sold, realizing \$5,640 in the 2015 FUN auction; prior to that, one sold for \$7,344 in February 2014. The current Collectors Universe value is \$7,950. Keeping in mind just 2 are finer, and none have sold since August 2011, this is a very important opportunity for anyone working on a top tier collection on the Set Registry. Good luck!

What a great start to a collection of Proof Buffalo nickels. We LOVE this series, as it has a lot going for it! It is short, completable, and without any major rarities it is affordable in most grades for collectors. Not only that, when they are nice, they are NICE.

This SUPERB GEM is better than "nice." Both sides offer a lovely iridescent toning that enhances the matte surfaces. Sharply struck devices stand out against flawless surfaces. The eye appeal is excellent.

PCGS 145, NGC 97, CAC 51. Three are just 3 in 66+ the last one sold for \$3,600 in November 2017. More recently we sold a PR66 CAC for \$3,525 in our June 2019 Regency Auction. The current PCGS Price Guide value is listed at \$5,000. Fewer than 80 have been graded higher at PCGS, making it scarce finer. The eye appeal is SUPERB and this one is clearly worthy of a strong bid. If you are looking for a fun, affordable, side project, we have highly recommended for ages to build a set of Proof Buffalo nickels. Let this start yours!

This is a MONSTER! The superlatives and adjectives needed to suitably describe the amazing state of preservation and eye appeal cannot easily be put on paper. Truly this coin is proof that a picture is worth 1,000 words! Here are five to start off: THE FINEST PCGS GRADED EXAMPLE!

The highly reflective mirrored fields are the epitome of perfection.

They are pristine with a deepness and clarity rarely seen on anything but the most modern Proof issues. Utilizing a strong glass, anything seen on the fields are in the planchet, part of the minting process and have no effect on the grade or eye appeal. Both sides offer a stunning array of purple, royal blue, aquamarine, and rose-gold swirl around vibrant silver in the centers.

Not only is the quality of the surfaces and visual allure beyond compare, but you cannot beat the pedigree! From the Eric Newman Collection, where it was sold in November 2013, lot 33389. Gene Gardner purchased it out of the Newman sale, and it sold in the Gardner sale, May 2015, lot 98393.

The first year of mintage for the series, the mintage of 1,245 was the highest for the Proof Barber quarters. This marvelous example last sold in an OGH, which makes us believe that it was part of a group of SUPERB Barber Proofs that came to market in the early to mid 1990s.

PCGS 5, NGC 15, CAC 5. In February 2013, this perfect type coin brought \$15,864. Since then, APRs have been lower, but the quality and eye appeal of those examples do not match the SUPERB, stunning traits that this one does. The current Collectors Universe value is listed at \$10,500 and it would not be a surprise to us if the winning paddle was in the air when an even higher bid is called. Good luck!

This is an incredible, SUPERB coin. The obverse really does grade PR67+ while the reverse is a full PR68!

Bold deep mirrors beam from all over; they are extremely clean, crystal clear, and have a bold reflection. When you twirl the coin, the mirrors look like a freshly formed sheet of ice. The obverse enjoys moderate natural pale colors of lavender, blue, green, gold, amber, and pale tangerine. The reverse is an explosion of iridescent blue, gold, amber, pearl green, and violet colors. Miss Liberty and the details are needle sharp in strike and have thick frosting. They look slightly 3D. The eye appeal is super!

Only 880 Proofs were minted. PCGS 17, NGC 14, CAC 14. PCGS has graded 6 in PR67+. The current Collectors Universe Value is only \$5,000. Yet another great piece the market beat down for no real reason. VERY RARE any finer. Start a set of Proof Barbers today, the timing could not be better!

We looked this coin over multiple times, and all we can say is "Wow! why didn't this quarter DCAM?" The contrast is very impressive with fully struck and frosted white devices and deep, beaming "black" mirrors. The mirrors are ultra-smooth and amazingly flashy with a vibrant brilliance that is nearly blinding. Both obverse and reverse have a delicate album tone at the rims, that frame the bright, brilliant, untuned silver centers. The eye appeal is spectacular in every way!

Only 735 Proofs were struck. PCGS 16, NGC 24, CAC 14. There are just four coins graded PR67+ CAM. Prior to this one, the only PCGS/CAC PR67+ CAM to ever sell via auction realized \$6,463 in our October 2017 Regency Auction. The current PCGS price is listed at \$6,150. Only four coins are graded higher in the Cameo designation, and just one is CAC-approved; anything finer is likely a five-figure coin and this coin represents a great value for the Barber collector. **50C 1907 PCGS PR67 CAC**  
 FROM THE YOUNG-DAKOTA COLLECTION

This is one heck of a SUPERB GEM Proof 1907 half, and is one of the highest graded at PCGS, bettered by just two coins. Superior, deep mirrors have amazing clarity, cleanliness, and bold reflectivity. This is not a dipped or retoned album coin. Both sides have an even, moderate coating of original golden brown/pale olive/pale russet colors evenly spread all over. Miss Liberty and the details are pinpoint sharp in strike. The eye appeal is great!

Only 575 Proofs were struck. PCGS 11, NGC 9, CAC 8. The last one to sell realized \$4,730 in our August 2018 Premier Session. This is the former Col. Green-Eric Newman coin that we sold in February 2015 for \$6,169. Today's Collectors Universe value is \$5,250. Keep in mind that anything finer will likely cost into the five figures. A world class coin that will fit into any world class set.

EX COL. GREEN AND ERIC NEWMAN COLLECTIONS

High end and totally original, this is a date that is rarely seen with any kind of contrast. The present coin has, for the date, an incredible contrast! Watery reflective mirrors sparkle with a brilliant vivacity in the fields. The clarity of the mirrors contrasts against the frosted devices. Blushes of blue and gold can be seen in areas of the obverse, while the reverse remains virtually untuned.

Only 551 Proofs were struck. PCGS 9, NGC 5, CAC 3. The most recent example to sell in auction realized \$4,290 in our April 2018 Premier Session. Today, the PCGS Price Guide value is listed at \$4,250. This coin when it last sold was a non-CAC NGC PR67, selling for \$4,847 in July 2014 (it originally sold in the Newman sale for \$8,813). PCGS has graded just three coins finer in the CAM designation, the finest a single PR67+ CAM which has never sold in auction. This is a real prize for anyone looking for an amazing quality, pedigreed 1910 Proof half! Good luck!

 FROM THE YOUNG-DAKOTA COLLECTION

A SUPERB example, one of the FINEST graded examples of this date graded! Wonderfully and totally originally toned surfaces show off a bold, watery reflection to the mirrors. The obverse is awash in a swirling blend of pale lilac, warm honey-gold, and apricot-orange while the reverse is a more even blend of violet and orange tone. The eye appeal is exceptional in every way.

Only 627 Proofs were struck. PCGS 15, NGC 13, CAC 11. There are only two examples graded PR67+. The other example to sell in auction was from our September 2016 Regency Auction's offering of the Flannagan Collection, which sold for \$5,522. The current PCGS Price Guide value is listed at \$8,000. Just one coin is graded finer at PCGS, a PR68 that sold for \$17,625 in the March 2017 sale of the Blue Moon Collection. What a great example of this date, worthy of a world class Proof Barber half dollar set. We can see this SUPERB GEM bringing a very strong bid when the hammer falls.

 COLLECTION

One of the FINEST examples of this lowest mintage Proof Barber half dollar—indeed, this PR67+ is tied with three others reported at PCGS as FINEST seen! Few, if any can come close to the SUPERB quality and eye appeal of the presently offered beauty.

Vividly toned over extremely reflective, watery surfaces are the epitome of perfection. Essentially flawless, this coin is very high end in terms of technical and aesthetic quality. The toning is uniquely patterned on both sides, with swaths of peach, olive, gold, pale blue, lilac, and bold sunset orange that dominates the lower obverse.

Only 380 Proofs were struck, making this the LOWEST mintage of the entire series. PCGS 16, NGC 13, CAC 13. This coin sold as a PR67 as part of the Gene Gardner Collection for \$9,694 in October 2014; Mr. Gardner bought this SUPERB GEM from an August 2013 auction for \$14,688. It has since been submitted and received the "+" grade, making it tied for FINEST! You cannot beat the Gardner pedigree or this AMAZING coin's eye appeal!

Incredible! Flawless! Ultra deep and intense mirrors beam from all over and reflect the light with exceptional clarity. The fields are smooth and free of any flaws and the reliefs are clean and nicely frosted. Two reverse die types were used in 1956 to produce proofs and the Type 1 is the scarcer of the two types. PCGS CoinFacts states as of February 2012 about 10x as scarce, which is not too far from Walter Breen's estimate of 5% being Type 1. Ron Guth added that CAMEOS "are about five times as rare as the non-Cameos. Deep Cameo Proofs are exceedingly rare."

WOW! What a stunning DCAM Franklin half! The mirrors are JET black and the frosted reliefs are fully struck and frosty white. The fields and surfaces are flawless! Even with a strong glass we fail to detect anything of note. As a rule, Franklin half dollars in Proof are notorious for how poorly the cameo contrast comes out and the 1960 is no different. Care was not taken as they struck the nearly 1.7 million proofs and few have the bold, deep, black mirrors and the highly frosted reliefs that this SUPERB coin does. Keep in mind that CAC is very tough on CAMs and DCAMs, they have to be all there!

Blazing black mirrored fields contrast vividly against the thickly frosted, razor sharp devices. The fields are exceptionally reflective, with ultra clear and clean surfaces for the grade. Indeed, this coin borders on the DCAM classification. Essentially untuned, we note only the slightest touch of clear gold at the rims. Unlike so many Proof Trade dollars, the surfaces are totally free of any haze or unsightly toning; the eye appeal is spectacular for the assigned grade.

Only 700 Proofs were struck. PCGS 25, NGC 27, CAC 13 There are 3 in PR64+ CAM, none of which have ever sold in auction. Among the absolute FINEST graded in the designation, with just 3 coins graded higher without the CAM or DCAM designations. This marvelous SUPERB GEM is richly toned on both sides, the bold, watery mirrors bring out the variegated hues. Sunset orange hues grace the upper obverse periphery, blending with a mix of rose, peach, violet, and teal. The reverse displays a wonderful mix of the same tones, in a different pattern and proportion, which give this coin a 100% original look. The devices are razor sharp in strike, with none of the weakness that is sometimes encountered.

An impeccable mirrored finish to the fields gives life to the colors, as the light hits the exceptionally smooth surfaces.

Only 960 Proofs were struck of this Proof-Only year. PCGS 9, NGC 19, CAC 9. This is the ONLY PR66+, but does not appear to be the non-CAC example that sold in December 2015. Stunning quality and eye appeal! Blast black and white deep cameo contrast is truly a delight to behold! While not a rare date in the series, after 33+ years of grading coins, PCGS has graded exactly THREE coins in the DCAM classification! That is RARE!

Gorgeous surfaces show off a blinding, bold, brilliant reflection in the fields that is deep and ultra clean with no haze or toning to be found anywhere. Contrasting with the mirrors are thickly frosted, razor sharp devices that stand out with full 3D definition. The eye appeal is nothing short of amazing and very high end.

Sensational mirrors are deep and beam boldly from all over.

The mirrors offer remarkable clarity and are the ultimate in cleanliness. When you twirl the coin you see a gentle roll of liquid mercury type eye appeal. A slight hint of golden brown can be detected on part of the upper obverse peripheries. The contrast is quite bold. Miss Liberty and the details are fully struck and have thick frosting. The eye appeal is stunning!

PCGS 5, NGC 4, CAC 5. None are graded finer by PCGS. This coin last sold for \$45,825 back in December 2016. The JFS coin brought \$63,250 way back in 2011. This is by no stretch a common date. The quality plus the killer eye appeal make this coin a world class top proof. Young-Dakota and the late Jack Lee did all the hard work for you here!

 FROM THE YOUNG-DAKOTA COLLECTION

When it comes to Proof Morgan dollars, often times, deep, rich toning can obscure cameo contrast. This PQ and totally original GEM 1885 is a very pleasing exception! Sharply struck devices are nicely frosted and they contrast wonderfully against the flashy, watery mirrors that have a bold clarity and smoothness. The toning pattern starts as deep blue-green and purple at the rims, blending to a lovely variegated gold toward the centers.

Only 930 Proofs were struck. PCGS 20, NGC 13, CAC 12. Prior to this coin selling in March 2019, the most recent example to sell in auction realized \$14,100 in our November 2018 Regency Auction; and prior to that, one sold in March 2018 for \$15,600. The current Collectors Universe value is listed at \$11,000 and keep in mind how rare this date is any finer. Worthy of a very high end collection of Proof Morgan dollars and we can see this GEM selling for a very strong price for its high end premium look!

This is a stunning borderline SUPERB GEM!

Superior, ultra deep mirrors have bold clarity, cleanliness, and reflectivity. The coin appears white, but there is a faint hint of gold handsomely framing the rims. Miss Liberty and the details are incredibly struck and have a wonderful frost that contrasts against the mirrored fields imparting a phenomenal eye appeal!

Only 590 Proofs were struck. PCGS 15, NGC 23, CAC 7. This is the only PCGS PR66+ CAM graded and it most recently sold in our February 2015 Regency Auction for \$17,038. Only seven coins have been graded higher in the designation, and keep in mind that a PR67 CAM CAC sold in our May 2019 Regency Auction for \$27,025. This is a very rare opportunity to buy a condition census Proof 1890 silver dollar; do not let it pass you by!

The watery reflective mirrors bloom on both sides, bringing the vivid obverse toning to life. Golden-brown hues blend with blue and amber, giving the obverse a neat look. The reverse retains mostly untuned mirrored reflection. The devices show the typical minor softness above the ear. Decent eye appeal for the grade.

Only 650 Proofs were struck. PCGS 54, NGC 41. The most recent PCGS graded example that was not CAC approved example brought \$3,600 in the 2018 ANA auction and the current PCGS price Guide value is listed at \$4,250. What a neat coin for the budget minded collector.

# THE CORONET GOLD COLLECTION

Legend Numismatics is proud to be associated with this collector for many years! The collector built the former #1 all-time Morgan Set and this amazing Gold Type set being offered here.

From the very beginning, the Coronet collector was all about owning the very best coins in the very best quality. He did not tolerate low end or unsightly coins. He fully understood what it took to own those coins and he was richly rewarded with many record prices when he sold his Morgan Dollar Collection. We expect he will reap the same rewards from this magnificent Gold Type Collection.

After the sale of his Morgans, the Coronet collector got the “bug” and wanted to build something else. He knew he could never rebuild his dollar set and when we suggested a Gold Type set, he became fully mesmerized. It took a huge effort on our part to locate the coins that would be up to his high standards. In the end, the set was so great he could not pick which coin was his favorite-he loves them all!

Nearing retirement, the Coronet collector has decided to part with these precious pieces hoping the new owners will enjoy them as much as he did.

We congratulate the Coronet collector on his remarkable numismatic achievements. He certainly has earned a top position in numismatic history. We thank him for allowing us the pleasure of exclusively working with him.

What a terrific coin to start off the Coronet Type set of gold. This coin is unquestionably SUPER HIGH END!

Nearly pristine surfaces are a delight to behold. Only when using a strong glass can you find a microscopic tick/frost break. A bold luster beams from all over. There is even a trace of semi-prooflike mirrors on the obverse. Both sides enjoy a beautiful totally original deep gold color. There are no spots or discolorations anywhere. Miss Liberty and the details are sharply struck and enjoy light frost. The eye appeal is wonderful!

PCGS 63, NGC 42, CAC 30. PCGS has graded only 9 in MS66+. The last PCGS CAC piece to sell in auction brought \$6,500 in December 2017. Do not be fooled by the pops, these are very difficult to find this nice! Opportunity knocks loud here!

Its hard not to fall in love with this gorgeous piece. The quality for sure (like all Coronet Gold) is HIGH END!

Super surfaces have just the lightest trace of some scuffs (really invisible unless you're using a strong glass) that keep it from a MS66+. Overall, the surfaces absolutely look clean. A full booming luster shines brightly from all over. Both sides are an original enriched orange gold color. There are no discolorations or spots. Miss Liberty and all of the details are frosty and are sharply struck. The eye appeal is gorgeous!

PCGS 14, NGC 6, CAC 6. The last PCGS CAC 1854 MS66 to sell in auction brought \$51,700 way back in August 2015. Prior to that, one sold for \$70,500 in May 2017. We can tell you our sister company, Legend Numismatics has not owned any TYII in MS66 in 3 years! This is a VERY underrated Type. And the heavyweight champion of 1889 Gold Dollars is: THIS COIN! OMG is this a winner! And it's REALLY HIGH END too!

Out of this world surfaces are incredibly clean and smooth. Only when using a strong glass can you find ONE single microscopic grease dot on the reverse. We think that is what keeps this coin from an MS68+. An intense luster beams from all over. Mother Nature did yet another magnificent job with the colors. Heart pounding reddish gold swirls over deep yellow gold on both sides. The coin looks like it is on fire! Miss Liberty and the details are lightly frosted and are perfectly struck. The eye appeal is incredible!

PCGS 10, NGC 14, CAC 4. The last 1889 PCGS CAC in MS68 to sell in auction brought \$12,337 in September 2016. You can look as hard as you want, we doubt any other 1889 (and few other G \$1s ) will put on a color show like this beauty! Also, the legitimate rarity of this coin can not be overstated. You do not have to be building any kind of a set to want to own a killer coin like this.

When Legend Numismatics bought this coin for the Coronet Collector, they paid a strong price. While they had seen one or two prooflike pieces for the Type, they had NEVER seen one that looked like a Proof at first glance. This coin puts to shame many higher graded pieces for the series. We fully consider it a MONSTER!

No question this coin borders on full MS. In fact it is driving us nuts looking for why it is not.

Out of this world surfaces have only a few widely scattered microscopic ticks that you need a strong glass to see. The surfaces are also fully prooflike-even fully DMPL! When you twirl this coin the flash almost blinds you. A light and totally natural layer of pale reddish gold can be seen on both sides. Miss Liberty and the details are very well struck. We kid you not when we tell you it's hard to find any wear. The eye appeal is amazing!

Only 4434 minted. PCGS 6, NGC 9, CAC 4 (this coin may be 2x). Of course there is no auction record for an AU58+. This coin was purchased for the record sum of \$36,425 in May 2018. When you see this coin, you will fully understand why the price guides are so meaningless. This coin is so night and day to the majority of AU's and even MS61's for the series. The surfaces are just too hard to believe they actually exist. First, they are super clean. Using a strong glass you can see a few light die cracks and no problems. Unlike so many others of this Type, this coin has full prooflike mirrors and light contrast too! This cataloger has only seen this type of look on full proofs. When you twirl the coin, the prooflike mirrors really stand out. Both sides are bathed with a beautiful and totally original pale orange gold color. There are no discolorations or spots anywhere. Miss Liberty and the details are exceptionally well struck for the date and have generous frost. The eye appeal is mesmerizing!

PCGS 0, NGC 2, CAC 1. This coin last sold for \$55,813 in 2015; 4 long years ago. We cannot say since then we have seen ANY of the Type in PCGS CAC MS65 offered for sale. When you see this coin, you will wonder how it remained so SUPERB underwater for well over 100 years. It does not look messed with. We fully concur with the + designation. This coin is closer to an MS66 than an MS65!

Outstanding surfaces are surprisingly clean and smooth. The surfaces have a full satiny texture. Save for a frost break, we used a strong glass to go over the surfaces and were only more impressed by the coin. A full booming luster beams vividly from all over. Both sides are a lighter gold color. There are NO spots or discolorations anywhere. Miss Liberty and the details are frosty and are fully struck. The eye appeal is terrific!

PCGS 2, NGC 0, CAC 1. For the date, this is the second finest known. This coin has extreme quality and the history of being in a legit treasure ship wreck. This coin offers tremendous opportunity today. We can see this as a potential six figure coin in the next few years!

No average common date MS66 would do for the Coronet Collection. Some way some how our sister company Legend Numismatics acquired this killer SUPER HIGH END piece. We certainly have never seen anything similar on the market in many years!

For a \$2.5 Indian, the surfaces are remarkably clean and satin like. Even the dreaded right reverse field has just one microscopic tick and that is it. The luster is good and is glowing. Both sides are a beautiful two tone original gold with pale orange gold highlights. There re NO spots or discolorations anywhere. All of the details are very well struck. The eye appeal is totally adorable!

PCGS 113, NGC 66, CAC 21. PCGS has graded only 5 in MS66+ with just 3 higher (NONE of the 3 MS67's are beaned). There are NO auction records for any MS66+ ever selling. We fully disagree with all published prices as again, NONE have sold (Collectors Universe shows a \$14,500 value). A NON CAC PCGS MS66 did sell for \$13,200 in March 2019. We certainly have not even owned an MS66 in many years. We expect fierce competition for this coin. Be prepared!

SUPER HIGH END quality. We really think PCGS was harsh when they graded this coin. For sure it has all the bells and whistles you want for one of the top grades. This coin is a true Civil War delicacy!

Amazing surfaces are as clean and smooth as you could ever dream about. You can see some light die clashing as well as light striations-both Mint made. We used a strong glass and looked around and saw no imperfections. There are faint traces of semi prooflike mirrors that can be seen when you twirl the coin. A full blazing luster beams from all over. Both sides enjoy a phenomenal and totally original mix of swirling reddish gold over bright orange/yellow gold. Miss Liberty and the details are frosted and are well struck. The eye appeal is awesome!

Only 5000 were minted. PCGS 4, NGC 4, CAC 1. This is the ONLY MS66+ graded by PCGS or NGC. The current Collectors Universe Value is \$62,500. We think that is cheap. An MS67 sold for \$211,500 in January 2014. Our estimates reflect what we feel the coin should be worth today. We do not see hardly ANY Civil War Gold in PCGS CAC higher grades anymore. This coin will be a star in any collection!

FROM THE CORONET GOLD COLLECTION

When our sister company Legend Numismatics was building the Coronet Gold Type set, average coins would not do. They set a high bar for quality and eye appeal-and this coin more than proves it. This coin is far superior to the shallow/hazy mirrored pieces we typically see.

Deep mirrors beam boldly from all over. The mirrors have exceptional cleanliness and strong clarity. Striations are even held to a bare minimum. When you twirl this coin it looks like a freshly made sheet of glass. The reflection is intense while the contrast is strong. Both sides are a brilliant yellow gold color. There are NO spots or discolorations. Miss Liberty and the details are sharply struck and have thick gold frost. The eye appeal is awesome!

The \$4 Stella has long been included among gold type collections, however, they are technically patterns. By 1879, for at least a decade, various proposals for an international coinage had been tested. In 1868, there was a pattern \$5 / 25 francs struck; in 1874 Dana Bickford proposed a \$10 gold piece that had the conversions into various European currencies. None of these made it any further than a few coins struck.

In 1879, John Kasson, the ambassador to Austria suggested a \$4 gold coin to be struck in a Metric gold composition. Kasson had connections, and the resulting proposed \$4 gold piece was the closest an international coinage got to mass production. Two distinct obverses were created, one with a Liberty head with her hair flowing down, designed by Charles Barber, and the other with Liberty's hair coiled up on of her head by George Morgan. The 1879 is the most "common" with 425 reported struck. Legend has it that many of these were distributed to congressmen to show what the coin would look like and some of them ended up being spent in Washington brothels.

Only 425 were minted. PCGS 13, NGC 18, CAC 8. The last PCGS CAC example to sell in auction brought \$240,000 in November 2017. The current Collectors Universe Value is \$290,000. Out side of a High Relief in GEM, we strongly believe a GEM Stella is the next most popular coin to have in a box of 20 or a major collection. Nice coins have not been showing up in any frequency anymore. Once this coin is sold-good luck getting another!

 FROM THE CORONET GOLD COLLECTION

It is the strong opinion of this cataloger that this coin in the old days (prior to certification) would have been designated a full MS65+++ . Even as an MS64+ we rank it an MS64.9+!

Everything about this coin is full GEM quality. The only thing we can see keeping this coin back from a full MS65 designation are some light adjustment marks on the reverse. The surfaces are as pristine as we have ever seen for the Type. Forget a glass, you can use the most powerful microscope on earth and you will find NO impairments anywhere. The surfaces have a stunning satiny texture. The luster is strong and glows from all over. Both sides are a SUPERB GEM original yellow gold color. There are NO discolorations or spots anywhere. Miss Liberty and the details are well struck and are really frosty. The eye appeal is totally mega WOW!

PCGS 40, NGC 19, CAC 20. PCGS has graded only 4 in MS64+. NO PCGS CAC piece has ever been sold via auction. We disagree fully with the published prices when discussing this coin. Remember, this coin is that close to an MS65 and should be valued that way. In 2014 this coin sold for \$70,500. The current Collectors Universe Value for an MS65 is \$130,000. If you are the pickiest buyer, this coin will make you more than satisfied!

We can not imagine how this coin survived 213 years in such an unreal state of preservation. Seeing is believing!

We are not kidding when we say at very first glance, this coin looks like a Proof! For sure, this coin is VERY HIGH END and light years above all others.

Incredible fully prooflike mirrored surfaces scream from all over. The surfaces are exceedingly clean and have the faintest of lines that you can only see when using a strong glass. When you twirl the coin, besides being nearly blinded, you see the prooflike mirrors that look like ice glistening in the sun. There is surprising and strong contrast. Both sides are a vibrant yellow gold color. There are NO discolorations or stains anywhere. Miss Liberty and the details stand out with full strikes and thick deep yellow gold frost. The eye appeal is amazing!

PCGS 23, NGC 15, CAC 6. This coin was from a super fresh collection buried away for decades. It brought \$45,825 in June 2016. We saw the PCGS NON CAC +. This coin blows it out of the water. Plus, this coin is fully prooflike. Actually, we can write forever about this coin's remarkable attributes.

If this VERY HIGH END piece is an MS64, then we sure would love to see what is expected of an MS65! We can not imagine a nicer piece. We really can not see why this coin did not plus (we make no promises).

Outstanding surfaces are super clean and are boldly satiny smooth. Only when using a really strong glass can you find a super light scuff in the left obverse field and that is it. We can't find any real imperfections here. An intense luster (which is amazing for a 209 year old coin) beams boldly from all over. Both sides are a GEM original deep yellow gold color. There are NO spots or discolorations. Miss Liberty and every detail are sharply struck and frosted. The eye appeal will spoil you it's so gorgeous!

PCGS 5, NGC 4, CAC 2. PCGS has possibly graded only 2 finer (both MS65's). The last auction record for \$5 1810 like this is \$58,750 in August 2016. The current Collectors Universe Value is \$67,500. You have two things here, #1 a really high end and gorgeous coin, #2 a VERY undervalued coin as well! Be prepared for some strong bidding here!

When building the Coronet Type set, our sister company, Legend Numismatics wanted a special coin for this specific Type. They sure found it! This is a remarkable SUPER HIGH END piece. PCGS really showed it no mercy!

You will be mesmerized with the surfaces on this GEM. Not only are they exceedingly clean, they have light prooflike mirrors. You do NOT have to imagine the mirrors. We went over the coin using a strong glass and found nothing that warrants this coin not being a + (we make NO promises). Yes, the coin is that HIGH END. Because of the mirrors, the luster is very flashy. Both sides are a GEMMY and totally original pale orange gold/deep gold color. There are NO discolorations or stains anywhere. Miss Liberty and the details are frosty and fully struck. The eye appeal is fabulous!

PCGS 1, NGC 3, CAC 1. This coin sold for \$129,250 back in May 2016. In 2014 it brought \$141,000. Only a PCGS MS65+ and a PCGS MS66 are graded higher. The current Collectors Universe Value is \$155,000. As you can see, pieces like this are once in a life time opportunities. The appearance rate of a coin like this is now measured in years!

Legend Rare Coin Auctions is proud to offer this magnificent piece from the Coronet Gold Collection for addition to your collection or box of 20. Be prepared for strong bidding. Good luck!

**FROM THE CORONET GOLD COLLECTION**

We sure do not see Classic Heads like this anymore. We have seen many GEM's and several near GEMs of this Type. This coin is far superior. Without any hesitation we grade this coin a VERY REAL MS64.9+! Before 3rd party grading there is no doubt in our minds this coin was called a GEM MS 65.

Remarkable surfaces are as pristine as you will ever see. Even using a strong glass all you can find is one tiny microscopic tick and a small Mint made planchet issue. The surfaces are nearly fully prooflike and offer strong mirrors that put on a show. The mirrors offer tremendous clarity and an intense flash. Both sides are a killer original brilliant gold/deeper gold color. The contrast is bold. There are NO spots or discolorations. Miss Liberty and the details are fully struck and have thick frost. The eye appeal is tremendous!

PCGS 37, NGC 3, CAC 14. PCGS has graded only 7 cons in MS64+ and 6 finer. We would challenge this coin's quality and eye appeal vs any NON CAC (or CAC) GEM! Forget about published prices here. To place this coin in the Coronet Collection a strong premium was paid that was far in excess of the ridiculously low Collectors Universe Value of \$27,500 (we believe the number was derived from a low end NON CAC coin). Trust us here, this coin borders on being worth \$100,000! We're not hyping anything about this incredible piece-seeing is believing!

We can not believe this is a No Motto. It looks more like a common 01-S! This coin really is close to MS67. This is the FINEST 1852 \$5 graded.

Superior surfaces are a joy to behold. They appear slightly satiny with a solid original "skin" yet have faint traces of semi prooflike mirrors. Only when using a strong glass can you find a small cut or two and a really wicked cool die break from 7:00 to 9:00 in the obverse stars. A strong glowing luster beams boldly from all over. Both sides are beautiful and totally original deeper gold color. There are NO spots or discolorations. Miss Liberty and the details are fully struck and have light frost. The eye appeal is fantastic!

PCGS 1, NGC 1, CAC 1. This is the ONLY MS66+ graded. Its last sale was back in January 2016 (a very weak auction) where it brought \$79,513. Our sister company Legend Numismatics would not settle for anything less than a true top pop piece. No question this coin more than fits the bill!

No question this coin warrants its lofty grade. We marvel how this coin has survived in such a lofty state of preservation for 117 years!

Exceptional surfaces are super smooth and clean. Even looking around with a strong glass yields you just a tiny tick or two. There is plenty of original "skin" visible. A strong luster beams boldly from all over. Miss Liberty and the details are frosty and are fully struck. The eye appeal is great!

PCGS 6, NGC 7, CAC 4. Hard to believe but there is an MS69 of this date (the Famous Eliasberg coin). The last PCGS CAC MS67 1902-S \$5 to sell at auction brought \$23,500 in January 2014.

Our sister company Legend Numismatics who exclusively built the Coronet Collection told us this was one of the last pieces they found. They did not want a more common date and would only accept what they graded a full MS65. We can't stress enough how much better this coin is overall vs the majority of MS \$5 Indians we see.

Only a few very light ticks can be found. The dreaded right reverse has one small line and none of the typical scuffs or whacks. The surfaces offer an above average luster. Both sides are a deeper and totally original orange like gold color. There are no spots or discolorations. All of the details are sharply struck and bold. Even the tip of the Eagle's top wing is so sharply struck you do not need a glass to see it. The eye appeal is wonderful!

PCGS 10, NGC 11, CAC 6. The last 1916-S PCGS MS65 CAC to sell in auction brought \$35,250 in 2015-FOUR LONG YEARS AGO! PCGS possibly has graded only a few pieces higher. This will be an exceptional fit into any GEM \$5 or Type Set. This is also the last GEM Legend Numismatics has handled for this date-and they look for them every where they go!

VERY HIGH END. We wish all MS63's could look this good. Think about how many hands it must have passed through in its 220 year existence!

Impressive surfaces appear clean and smooth. This is yet another Coronet coin that was placed in the set because there are no distractions that stand out. In fact even using a glass all you see are a few scattered tiny lines/ticks. We further assure you this is not an "AU63". A strong glowing luster beams vividly from all over. Both sides are a beautiful original yellow gold color. There are NO spots or discolorations anywhere. Miss Liberty and the details are extremely well struck and have generous frost. The eye appeal makes this coin really exciting!

PCGS 14, NGC 3, CAC 4. NO PCGS CAC piece has ever been sold via auction in MS63. We can not stress enough how nearly impossible it is to find one so original and choice these days. The current Collectors Universe value is \$80,000. We can see this coin easily selling for more. Good luck!

**\$10 1850 LARGE DATE. PCGS MS62+ CAC**  
FROM THE CORONET GOLD COLLECTION

This is not a beat up or average coin. It is a VERY HIGH END piece for sure! This piece is closer to an MS63, than an MS62. Legend Numismatics was extra finicky with the coins chosen for the Coronet Collection.

Lightly abraded surfaces do not reveal any deep or serious cuts or whacks. In fact the lines seem to stand out a little more due to prooflike mirrored surfaces. You do not have to imagine the mirrors. There is a good radiance/flash on this coin. Both sides are a beautiful and totally original orange gold color. There are NO discolorations or spots. Miss Liberty and the details are well struck and have light frost. The eye appeal is wonderful!

PCGS 3, NGC 4, CAC 1. This is the only PCGS MS62+ graded. There are no auction records for any MS62+ selling. A PCGS CAC MS63 sold for \$48,000 in February 2018. We can not stress the extreme rarity of ANY NO Motto \$10 in MS. If you have been looking for one, the Coronet Collection did all the leg work for you! Good luck!

 FROM THE CORONET GOLD COLLECTION

EX SIMPSON HALL

This coin was a “no brainer” for the Coronet Collection! If you notice it is from what was the former #1 set of \$10 Liberties-Simpson/Hall. You can look for many years and find few for the Type of this quality and eye appeal.

Only a tiny discoloration dot on the trunk of the neck keeps this remarkable SUPERB GEM from an MS67+ designation. The overall surface quality is immaculate and there is a smooth yet satiny texture. Using a strong glass yields NOTHING of any size.

A full booming luster glows. Both sides are a gorgeous totally original pale orange/subtle gold color. There are NO spots or discolorations. Miss Liberty and the details are fully struck and have delicate frosting. The eye appeal is tremendous!

PCGS 4, NGC 7, CAC 5. There has not been one sold at auction since 2012. Back then this was a \$55,000 coin. Today, with its extreme rarity in this grade, we think these have easily gone up in value beyond any old published numbers. We fully disagree with the Current Collectors Universe Value of only \$40,000. Good luck, we’ll buy every one at that price. We are estimating this coin at what we figure the high WHOLESale value is today (if there is such a thing). This coin will be a more than worthy addition to any GEM Type, box of 20, or \$10 Liberty set!

**\$10 1908 NO MOTTO. PCGS MS66+ CAC**  
FROM THE CORONET GOLD COLLECTION

Our sister company Legend Numismatics has assembled the #1 and #2 \$10 Indian Collections. So they know what to look for in a top coin. Even though this coin is not an MS67 or 68, it is one monster of a 66. They really out did themselves here!

Outstanding surfaces are beyond a joy to behold. They are as clean and satiny smooth as one can imagine. When using a strong glass you have to look really hard to find a microscopic tick or two (they really are invisible). A full luster beams in a booming fashion from all over. The luster really highlights the stunning original bold two tone orange/sunset gold colors. There are NO flecks, discolorations, or spots anywhere. Miss Liberty and every detail proudly stand out with full strikes. The eye appeal is jaw dropping!

PCGS 7, NGC 14, CAC 5. PCGS has graded 3 in MS66+. An MS66 brought \$35,250 way back in 2014! NO PCGS CAC MS66+ has ever been sold via auction. Here too, the published numbers simply are not correct. In this market, finding spectacular PCGS CAC pieces like this is impossible. When they do appear, they trade for significant premiums and are off the market. Do not miss this chance on this awesome coin!

**LOT 180**  
**\$10 1914-D PCGS MS66+ CAC**  
 FROM THE CORONET GOLD COLLECTION

No question this coin deserves to be in one of the finest collections. This coin is VERY HIGH END (not because of the + either). To this cataloger, this coin was love at first and every sight!

Superb surfaces are also superior. There are no problems visible to the naked eye. Even when using a strong glass the most you can find are a microscopic (and we mean microscopic) tick or two. The surfaces have a smooth satiny type of texture. A full booming cartwheel type luster beams intensely from all over. It really brings out the beautiful totally original deep gold/pale orange gold colors. There are NO spots or discolorations. Miss Liberty and the details are sharply struck and have slight frost. The eye appeal is spectacular!

PCGS 5, NGC 13, CAC 4. PCGS has graded 2 in MS66+. Neither coin has ever been sold via auction. This coin is far closer to an MS67 than an MS66. The last MS67 to sell brought \$86,000 in 2012-a number that would be easily surpassed today. We can not say enough how impossible it is to find \$10 Indians so fresh, HIGH END, and NOT whacked up like this. One look and you will fully agree on this piece being placed in a top set like Coronet-and yours! Be prepared for strong bidding here.

**FROM THE CORONET GOLD COLLECTION**

To call this coin anything less than an ULTRA HIGH END MONSTER is a crime. Our sister company Legend Numismatics has resubmitted this coin (as have we) seeking at least a +. PCGS is insanely tight. Every time we view this coin, we just shiver. We have never seen anything like it.

Beyond amazing surfaces not only are clean and sleek, they are fully prooflike. They are not a dipped out prooflike either. Only if you use a strong glass can you see a few trivial tiny ticks/lines scattered about. None are visible to the naked eye. Both sides are a killer original gold/pale greenish gold color. There is a copper toning dot (and it is toning) on the N of United on the reverse (which proves its originality). Miss Liberty and the details are thickly frosted and are sharply struck. There is strong contrast. The eye appeal will knock your socks off!

PCGS 4, NGC 1, CAC 3. PCGS actually has graded one higher-but it is not CAC. This is the famous coin from the long hidden "Midwest Collection" sold by Goldberg in 2016 where it realized \$170,375. The coin was purchased directly out of the sale by Legend Numismatics and placed in the Coronet Gold Type set.

While there may be 3 others graded by PCGS, we assure you, NONE of them are close to this coin's total package of crazy eye appeal, SUPER HIGH END quality, and a coin that at first glance looks like a proof! Good luck!

**LOT 182**  
**\$20 1880-S PCGS MS65+ CAC**  
 FROM THE CORONET GOLD COLLECTION

This coin should not even exist! For an 1880-S, the quality is off the charts. No question this is the **FINEST** 1880-S that exists!

John Albanese of CAC even called us to say how insane he thought the coin is. We have never seen any thing like this anywhere on any 1880's \$20.

Fully DMPL mirrors explode from all over. Because the mirrors are so deep there is a tiny bit of chatter visible. Obviously, none of it affects the grade. You do not have to imagine the mirrors either. The mirrors do have excellent clarity. The flash is intense and can be seen from feet away. Both sides also enjoy strong contrast. An even original gold color is spread all over. There are **NO** spots or discolorations. Miss Liberty and the details are thickly frosted and fully struck. The eye appeal is jaw dropping insane!

PCGS 1, NGC 0, CAC 1. We obtained this coin privately. It has never been in a lower holder, nor has it ever been in auction. The current Collectors Universe Value is \$125,000-slightly less than what we paid for this monster. If you seek a once in a lifetime TYIII \$20, this coin for sure is it! We expect strong bidding here, so be prepared. Good luck!

**\$20 1907 HIGH RELIEF. WIRE RIM. PCGS MS65+ CAC**  
FROM THE CORONET GOLD COLLECTION

This is a stunning totally ORIGINAL example of the all time beloved king of Saints. These are unquestionably one of the most beautiful coins EVER minted! This coin does not disappoint in any way.

First thing you see-the famous “deep dish” High Relief crater. Inside are surfaces that are smooth and are super clean. A strong luster shows off the coin's beautiful and totally original soft gold color. There is a microscopic toning dot or two with no real spots and no discolorations. As expected, Miss Liberty and the details are sharply struck and have delightful light frost. The eye appeal is phenomenal!

PCGS 301, NGC 101, CAC 35. PCGS has graded only 13 in MS65+. The last one to sell in auction brought \$52,874 in August 2014. That is a long time ago! Even if every HR ever minted survived in true GEM, they would still command strong prices as they are one of the most beautiful and popular coins that exist! Do not assume these are so common. Legend Numismatics had been searching for TWO years now for an MS66 or better HR WE for a customer before finally finding one late last year. Even in MS65, especially CAC beamed, these are hard to find these days. This SUPERB HIGH RELIEF FROM THE CORONET GOLD COLLECTION is what you want in ANY GEM collection!

**PCGS# 9135 | ESTIMATE: \$50,000+**

**LOT 184**  
**\$20 1923-D PCGS MS67 CAC**  
 FROM THE CORONET GOLD COLLECTION

This piece was the last to be cataloged for the Coronet Gold Collection. The reason, we were busy for the second time seeking a +. What in the world does PCGS want?

We consider this coin to be SUPER HIGH END.

Remarkable surfaces are better than 99% of what we typically see. Not only are these surfaces satiny, they have a trace of semi-prooflike mirrors. Plus, you can use the strongest glass and you will find NO ticks or imperfections anywhere. There is an interesting die crack running through the lower reverse. A thick satiny luster beams intensely from all over. The colors are a totally original deep gold/pale orange. There are zero spots or stains. Miss Liberty and the details are frosty and are well struck. The eye appeal is incredible!

PCGS 78, NGC 52, CAC 13. The last PCGS CAC piece to sell in auction brought \$25,850 in November 2016. We can see this piece bringing that or more! Even if you are the worlds pickiest buyer, this coin will floor you. Its so many light years above the rest. Good luck here!
